

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: San Diego Workforce Innovation High School

CDS Code: 37679830134890

School Year: 2026-27

LEA contact information:

Lindsay Reese

Area Superintendent

principal@innovationsandiego.org

(619) 432-4690

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue San Diego Workforce Innovation High School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for San Diego Workforce Innovation High School is \$68,057,653, of which \$57,790,580.00 is Local Control Funding Formula (LCFF), \$9,795,533.00 is other state funds, \$0.00 is local funds, and \$471,540.00 is federal funds. Of the \$57,790,580.00 in LCFF Funds, \$14,143,095.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much San Diego Workforce Innovation High School plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: San Diego Workforce Innovation High School plans to spend \$65,311,738.00 for the 2026-27 school year. Of that amount, \$55,201,316.00 is tied to actions/services in the LCAP and \$10,110,422 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Our independent study program implements a personalized learning experience for all students, including English learners, LTELs, low-income, foster youth, and special education students, that is carefully designed to address their unique academic and social-emotional needs. To serve our At-Promise and highly mobile population, expenditures are budgeted for, but not limited to, teacher and staff salaries and benefits, student interventions, curriculum development, professional development, materials, hardware, and software. Not included in the LCAP are the following:

- Audit fees
- Legal expenses
- Association fees
- Special Education expenditures
- Mandated Block expenditures
- Ancillary Grants
- AMS Prop 28: Arts and Music in Schools (AMS) Funding Guarantee and Accountability Act
- Student Support and Professional Development Discretionary Block Grant

## Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, San Diego Workforce Innovation High School is projecting it will receive \$14,143,095.00 based on the enrollment of foster youth, English learner, and low-income students. San Diego Workforce Innovation High School must describe how it intends to increase or improve services for high needs students in the LCAP. San Diego Workforce Innovation High School plans to spend \$14,143,095.00 towards meeting this requirement, as described in the LCAP.

The Local Control Accountability Plan (LCAP) directs the Supplemental and Concentration funding into goals and actions designed to help high-needs students with social-emotional support, academic interventions, counseling, and student engagement activities. Students have access to a robust tutoring program that supports their learning. Targeted academic interventions help close skill and knowledge gaps, ensuring that students become competent graduates. A brief description of the LCAP is that our first goal is a focus goal, and the first action is directed at helping our English learners and LTELs. Our second goal is a broad goal supporting student interest in a career or higher education. The third goal is a maintenance of progress goal that meets the mission of our school program, which is to retain students and help them graduate. The last LCAP goal is aimed at improving our educational partner engagement, especially for our English learners, low-income, and foster youth:

### Goal #1: Increase Academic Progress

- Action 1: English language learners and LTELs support staff, interventions, and materials.
- Action 2: All academic interventions and program materials.
- Action 3: Tutoring and support for students.
- Action 4: Counseling students toward graduation and materials
- Action 5: Student activities that increase learning efforts.
- Action 7: Professional Development for English learners.

### Goal #2: Students Will Gain Skills for College and Career Readiness

- Action 1: Career and college-readiness for English learners, LTELs, low-income, and foster youth students.
- Action 2: Professional development addressing English learners, LTELs, low-income, and foster youth students.
- Action 3: Technology for upgrading student programs.
- Action 4: Support for Standards-based Curriculum and Instruction

### Goal #3: Increase Student Retention

- Action 1: Student Retention Support personnel and incentive programs.
- Action 2: Social-emotional, trauma support services and materials.
- Action 3: Transportation for English learners, LTELs, low income, and foster youth students.
- Action 4: Access to nutrition for English learners, low-income, and foster youth students.

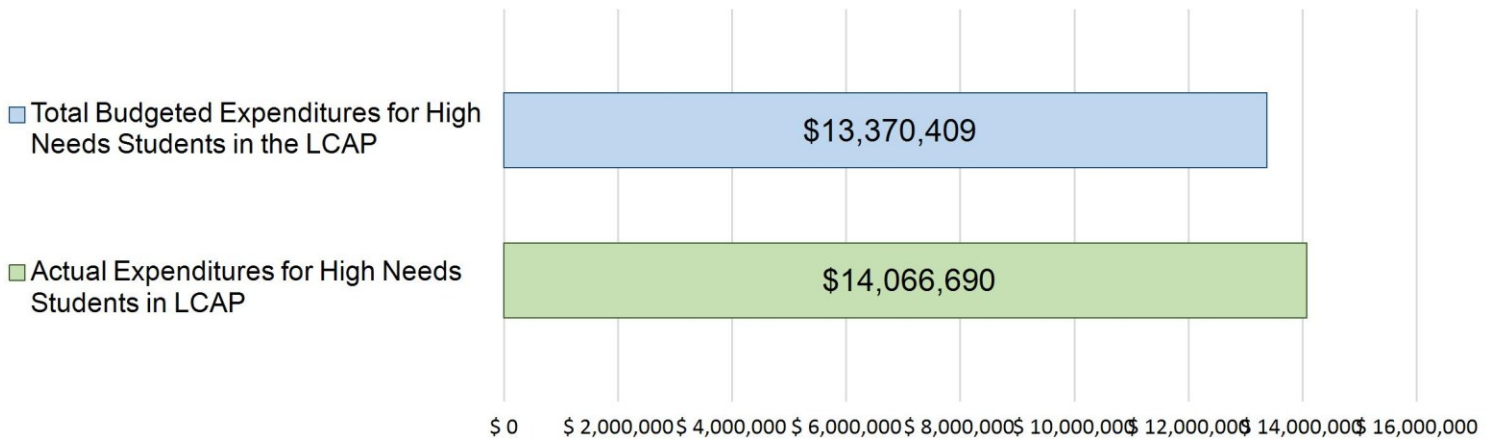

### Goal #4: Increase Educational Partner Engagement

- Action 1: Community/Parent Liaison and meaningful school activities.
- Action 2: Translation services and contracted services for outreach.
- Action 3: Educational partner events, personnel, and materials for engagement.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2025-26

Prior Year Expenditures: Increased or Improved Services for High Needs Students

This chart compares what San Diego Workforce Innovation High School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what San Diego Workforce Innovation High School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, San Diego Workforce Innovation High School's LCAP budgeted \$13,370,409.00 for planned actions to increase or improve services for high needs students. San Diego Workforce Innovation High School actually spent \$14,066,690.00 for actions to increase or improve services for high needs students in 2025-26.

## Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

## Plan Summary [2026-27]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

San Diego Workforce Innovation High School (SDWIHS) is an independent study school that qualifies for the Dashboard Alternative School Status (DASS) program. As of CBEDs day 2025, SDWIHS had an enrollment of 2,722 students. The school serves a diverse student population, including 21% English Language Learners, 79.1% low-income students, 1.1% foster youth, and 22.6% special education students. SDWIHS aims to engage all students in learning by providing personalized education in an alternative setting. The goal is to prepare students for college and careers through job-readiness courses, standards-based coursework, and Workforce Innovation partnerships.

Through partnerships with WIOA, students gain improved tools to identify and access training options and other employment services that best suit their needs. Many students require the flexibility of an independent study program to meet family obligations, work, and childcare needs. SDWIHS offers site-based learning, independent study, and distance learning to accommodate these diverse needs.

The school fosters a student-centered learning environment with high academic and behavioral standards. It encourages strong, two-way communication with parents, one-on-one teacher-student interaction, student-driven participation in the learning process, curriculum choice, and technology access. Each student has a digital academic plan tailored to optimize their learning potential and success. Multiple assessment platforms, including learning records, student work samples, local diagnostic assessment data, and state assessment data, measure student academic achievement. SDWIHS aims to develop critical thinkers, determined, self-directed, and lifelong learners. The school operates year-round with 13 Learning Periods (LP) for credit recovery.

The school expanded Career Technical Education (CTE) and dual enrollment opportunities to support LCAP goals related to college and career readiness. Through agreements with local community colleges, students are able to enroll in college courses that provide both high school and college credit upon successful completion. The school has expanded dual enrollment access in order to increase student success in college-level coursework, strengthen postsecondary readiness, and promote a culture of lifelong learning.

SDWIHS employs 306 staff members, including 92 teachers, 1 small group instructor, 33 education specialists, 3 special education program specialists, 5 school psychologists, 3 CTE teachers, 17 tutors, 21 paraprofessionals, 9 school counselors, 2 social workers, 36 support staff members, 9 registrars, 9 student retention support staff, 5 Jobs for American Graduates (JAG) Specialists, 7 learning center coordinators, 3 assistant principals, and 2 principals. The school has 11 locations throughout San Diego and Riverside County.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

### Reflections: Successes

We analyzed our school data using the CA Dashboard, DataQuest, our SARC, and our LCAP Annual Data Report, which aligns with the 8 state priorities. Although the school is identified for Comprehensive Support and Improvement (CSI), due to the federal graduation rate and for Differentiated Assistance for student groups in the red, there were significant successes, as shared in the key metrics below.

#### Graduation Rate

Our CDE Dashboard Alternative School Status (DASS) Graduation rate was calculated at 94.7%. This is high for a DASS school serving students who enroll needing more than +30 credits to graduate on average. This is +16.3 points from the baseline year. 95% of our English learners and LTEL students graduated in 2025. Our students with disabilities were also just below the All-student group at 93.9%. The Hispanic group was at 93.3%. White and Homeless students were at 97.7% and 90.0% respectively. Our African American were at 98.2% and foster youth had 83.3% graduating. Out Asian and all other student groups did not have enough in the population to warrant a calculation. This shows that our mission of meeting students' academic and social-emotional needs was effective. We plan to increase our success with our students by increasing such support as tutoring for all seniors.

#### CAASPP English Language Arts

The CAASPP scores also showed that 27% of our 11th graders were meeting or exceeding standards. This is above the expected outcome of 25%. Most of our students come to us deficient in credits and skills, and they score at the 7th-grade level in ELA. English learners were at 3% and below the All-student group. The Hispanic and low-income student groups who were below the All-group were at 24%. African American, Asian, and White students were at 36%, 55%, and 27%, respectively. Our students with disabilities were at 14%. This is significant because we serve students who are traditionally 3-4 grade levels behind in their schooling.

#### Science CAASPP and CA Dashboard

The CAASPP Science scores also showed that 17% of our high school students were meeting or exceeding standards. This was an increase of 13% points from the previous year and was approaching our expected outcome of 18%. Scoring above the All-student group were our homeless and White students at 20%. Hispanic and low-income student groups at 15% and 18%, respectively. Students with disabilities were at 17%. Our African American, Asian, English learners, foster youth, student groups, and all other groups did not have enough in the population to warrant a calculation. The CA Dashboard for science showed a green status. We serve students who are traditionally 3-4 grade levels behind in their schooling.

### English Learner Progress

The CA Dashboard ELPI is orange and shows 35.3% making progress towards English. Although this declined 2.2% from the previous year, it was still in the orange. Our LTEL group was also showing an orange status, with 38.8% making progress. We met our expected outcome of moderate growth. Our English Learner reclassification rate was at 8% with a 1% increase. The state average was 46.4% English Learner Progress Indicator for all EL students who made progress last year. We hope to meet that soon.

### Success Rate

Another important measure for us is our success rate, which is the percentage of students who graduate, along with the percentage that are retained or returned to their local school district. This metric was recalibrated to be an end-of-year measurement. Our success rate was running high at the end of last year and is 94.20%. This is 14.2 points above the target outcome. It's been high over the last three years and shows that our mission of meeting students' academic and social-emotional needs continues to be effective.

### Credit Completion

Our credit completion rate is a very important local metric that helps to monitor progress towards graduation. It has increased over the last two years. With additional supports in place, such as tutoring, our students were able to earn, on average, over +.8 more credits compared to the baseline. Our All student group earned a +29.9% higher credit completion rate than the baseline year. Our English learners earned +1.41 more credits than the baseline. The low-income and special education groups earned +.87 and +.93 points higher, respectively, in credit completion compared to the baseline year. The foster youth student group also increased by +1.01. We expect to continue to increase our credit completion rates for all students so that they stay above 4.0 or higher each learning period.

### Attendance

Our attendance rate is high at 93.18% and is .85 percentage points above our baseline. It is also below our expected outcome of 90%. Our teachers and retention support staff work to address the serious concerns we have for students dropping out. Additional re-engagement strategies could be helpful to students. Building relationships and staying connected to students has kept the attendance high.

### Suspension and Expulsion Rate

Suspension rate was blue, which is “Very Low” on the CA Dashboard. It was 0.0% for the All-student group. All student groups earned a blue status, including English learners, LTELs, low-income, Hispanic, African American, Asian, and all other groups in the population. All other students had 0% suspensions. Expulsions were low at 0.0%.

## School Survey Results

Our school survey data shows that 98% of our students felt connected this year. This is the same as last year and is over our expected outcome. This is an important metric for us, and we expect it to be higher each year. Face-to-face interaction with a caring adult will help students feel connected. Additionally, 99% of the students surveyed said that they feel safe at school. It is very important to us to ensure that we are doing everything possible to provide students with the time and attention to support them during their time with us. Teachers also reported that 99% feel safe and 99% feel connected to the school. We have high expectations for school safety and connection, and we intend to continue to improve our school connectedness.

Parents are encouraged to participate in their students’ education as well as school activities, events, and celebrations. This year, we almost doubled our education partner participation in PAC / ELAC meetings, going from 620 last year to 1153 this year. On the school survey, 99% said that they feel encouraged to participate this year, which is a +6 point increase from the baseline year.

Standards were met for the following state indicators:

- \* Parent Engagement,
- \* Local Climate Survey,
- \* Access to a Broad Course of Study,
- \* Basic Teacher and Instructional Materials, and
- \* Implementation of Academic Standards.

How will we maintain our success?

We plan to maintain and build on our success by implementing our LCAP actions with fidelity, carefully monitoring our progress, and discussing our results within our professional learning community (PLC). We will continue to grow in our capacity as we engage in a process of continual improvement based on the Plan-Do-Study-Act model (PDSA). Ongoing data discussions between teachers and administration will be grounded in established (PLC) protocols, with a focus on improving student outcomes. These regular PDSA cycles of collaboration will ensure continued alignment with and commitment to our LCAP actions.

The goals and actions articulated in our LCAP support our personalized learning model, and adequate funding is provided to ensure that effective strategic supports, such as tutors, student retention services, and trauma-informed trained teachers, continue. We monitor the progress of our students through multiple measures around engagement and academic performance. LCAP data and other local data are discussed quarterly and shared with our educational partners, including the school board.

Due to the nature of our credit recovery, independent study, and Dashboard Alternative School Status (DASS) program, certain data points are not included in the LCAP. Students do not take Advance Placement, or pass EAP in any amount greater than 11, and the CDE prohibits any potentially identifying student data. The federal calculation for the 4-5 year cohort graduation rate and the chronic absenteeism rate

metrics are also not a match for our program, because the calculations are for seat-based programs and not short-term independent study programs that have students with high mobility. We utilize alternative metrics such as the one-year DASS graduation rate and local attendance rates to monitor and report our students' progress towards graduation. Furthermore, our dropout rate is calculated as our non-completer rate, which tracks any student who does not report to us that they have continued with another program to complete their education.

#### Reflections: Identified Need

Our school is participating in Differentiated Assistance and Direct Technical Assistance, and we are working with county experts. We did a robust needs analysis for student groups in the red on the CA Dashboard. We also used additional data, state and local metrics, to identify student groups' performance gaps and resource inequities. We used student outcomes data from the latest CA Dashboard, DataQuest, CALPADS reports, and local LCAP data tracking. The data shows that multiple areas must be addressed as goals and actions in the LCAP. Our internal data collection and reporting system uses metrics that are aligned with state indicators and local performance indicators. We regularly monitor and evaluate our identified outcomes so that we can make program adjustments in areas that require improvement. As a professional network, we used a fishbone protocol for our needs assessment around our low graduation results. This revealed that multiple causes play into the graduation rate that need to be managed, such as credit completion, attendance, student motivation, parent engagement, and tutoring.

Our school was identified for Comprehensive Support and Improvement (CSI), as a result of a low federal 4-5 year cohort graduation rate. Each year, we engage in a cycle of improvement and examine the school data to determine if we will need to take action in the areas of graduation, credit completion, EL reclassification, and academic indicators by increasing tutoring support for students who are in line to graduate. This section describes our needs assessment to meet the federal requirement for CSI.

State performance indicators from the California School Dashboard show the following indicators were very low:

#### 5-Year Cohort Graduation Rate

The federal 4–5-year cohort graduation rate is very low and qualified us for CSI. The 5-year graduation rate was 32% in 2025, 32.2% in 2024, and 29% in 2023. This is far below the 68% threshold, but it is an increase of +3.2 points. As a DASS school, we use the 1-year DASS graduation rate. The student group data used in our analysis is from the Dashboard and is also reported in DataQuest. Below the All-student group was our Hispanic group at 31%, increasing slightly by 1.2%. Our African American students were at 45%, and they increased by 13.4% points. Our English learners and LTELs were both about 21.9% and 22.2%, respectively. The Students with disabilities and the White student group were above the All-student group at 32.8% and 30.6%. Additionally, our socioeconomically disadvantaged were at 30.6% and maintained. Homeless students also saw a decrease of 4.5% to 25.9%. The two or more races student group was at 25.6%. There were not enough students in the following groups to warrant a performance color for our American Indian, Asian, Filipino, and all other student groups. We recognize the inequities between the highest student group and the other student groups, and our plan to address the gap in graduation scores is outlined in our CSI plan and the LCAP.

#### CA Dashboard English Language Arts

Our Academic Indicator for English Language Arts showed the All-student group performing at 71.5 points below standard and received a red status. This was a significant decrease from the previous year by 15.4 points. The five groups in the red were our English learners, Hispanic, socioeconomically disadvantaged, students with disabilities, and White. In most cases, they declined by over 16 points. Our LTELs earned an orange status and increased by 4.2 points. Our African American, American Indian, Asian, Filipino, foster youth, homeless, and all other student groups did not have enough students for a status to be calculated.

### CA Dashboard Mathematics

The Academic Indicator for Mathematics for the All-student group has a red status as it declined by -17 points from the previous year. The All-group was below standard by 159.4 points. The six student groups earning a red status were socioeconomically disadvantaged, students with disabilities, English learners, LTELs, Hispanic, and White students. In most cases, they declined by over 10 points on average. All other student groups did not have enough students for a status to be calculated, including our African American, American Indian, Asian, Filipino, foster youth, and homeless. There were no other groups that were two or more performance levels below the “all student” group.

### CAASPP Mathematics

Our 11th graders scored 7% meeting standards on the CAASPP for Mathematics. This is a -1% growth from the previous year. This is approaching our expected outcome of 8%. Our African American and Asian students were just above the All-student group at 13% and 27%, respectively. The low-income and Hispanic students were at 7%. Just below the All-student group were our White students at 5%, English learners at 5%, students with disabilities at 5%, and homeless at 5%. The foster youth group did not have enough students to warrant a calculation. This is because students who enroll with us are typically 3-4 grade levels behind in their schooling.

### Retention Rate

One critical focus of our program is to improve the performance of our disengaged students and address social-emotional concerns such as trauma. We identify, early on, which students are not completing their schoolwork and then assign them tutors to ensure that they help support student learning. This metric was recalibrated to be an end-of-year measurement. At the end of 2025, our retention rate was 71.61%, which is 9.4 points below our target outcome. We will continue to ensure that our teachers, tutors, and counselors collaborate as a team to retain students.

### Non-Completer Rate

This metric was recalibrated to be an end-of-year measurement. As a result, we saw an increase in our non-completer rate 13.05%, which is close to our 10% threshold, but still above. Our teachers and retention support staff work to address the serious concerns we have for students potentially dropping out. Building relationships and staying connected to students has kept the non-completer rate low.

### Student Groups with Lowest Performance Levels from 2023 CA Dashboard:

Graduation Rate Indicator: African-American, English learner, Hispanic, homeless, two or more races, socioeconomically disadvantaged, students with disabilities, and White.

English Learner Performance Indicator: none

Academic Indicator -English Language Arts: English learner, Hispanic, socioeconomically disadvantaged, and White.

Academic Indicator -Mathematics: English learner, Hispanic, socioeconomically disadvantaged, and White.

College and Career Indicator: African-American, English learner, Hispanic, homeless, two or more races, socioeconomically disadvantaged, students with disabilities, and White.

Learning Recovery and Emergency Block Grant

Our school had unexpected LREBG funds for the 2025-26 school year. The LREBG funded action results may be found in Goal 1, Action 8, prompt #2. See action for description of the rationale for choosing the selected actions.

## Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Reason for Technical Assistance:

Initially, our collaborative CSI/DA Improvement team analyzed the 2023 CA Dashboard Academic Performance Indicator results and identified the student groups in the red were our English Learners, Hispanic, SED, and White students for the Graduation Rate. We have done a needs assessment to identify root causes and worked with the San Diego County Office of Education on possible actions that could improve our student outcomes. We decided to build our capacity to increase the 4-5 year graduation cohort rate through targeted tutoring interventions. We expect this adjustment to have a positive impact on our student groups' performance on the Dashboard.

Summary of the work underway as part of receiving technical assistance:

This year, our CSI/DA Improvement team continued work at the school site and county level as part of our technical support for Differentiated Assistance. We met with the San Diego County Office of Education at least quarterly, collaborating to Promote Equitable Outcomes for All Students and investigate systems and identify improvement practices. Working from our needs assessment and identified root causes, we focused on increasing the 4/5-year graduation cohort rate through targeted, enhanced tutoring interventions, credit completion monitoring, and personalized graduation planning aimed at improving outcomes for All Students, ELs, LTELs, SED, SWD, Hispanic, and White (those underperforming in the 2025 CA Dashboard Academic Performance Indicators Student Group Report). LCAP action 1.2 and 1.3 in the 2026-2027 LCAP describe the interventions in used to address this required action and meet the students' need for additional support. The current results show an increase in overall tutoring participation of 15%. Tutoring also had a positive effect on 4th/5th year students, averaging +0.14 credits over peers who did not attend tutoring. This shows a positive impact and that we are trending in the right direction.

# Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

## ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

San Diego Workforce Innovation High School is a single-school Local Education Agency.

## ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

We are a single-school LEA with Dashboard Alternative School Status (DASS). This is a summary of how we supported ourselves in the development of the Comprehensive Support and Improvement Plan. With guidance and training from the CDE, the county, and our local professional network, we did the following:

- We assigned our State and Federal Programs coordinator to provide leadership for the school in conducting a needs assessment. By analyzing the 2023, 2024, and 2025 CA Dashboard 5-year cohort graduation data to identify gaps and inequities between the highest student group and the other groups. The results are described in the Identified Needs section in the LCAP Plan Summary. Our framework is based on Carnegie's Improvement Science, and our model is the Plan-Do-Study-Act process for achieving continual improvement.
- The type of data collected for the needs assessment was CA Dashboard, math, ELA, and graduation results, attendance data, tutoring participation data, and credit completion data.
- The data informed the CSI plan by guiding the root cause analysis towards intensive tutoring, as a viable research-based strategy that would increase student math skills, credit completion, and therefore graduation rates. The data revealed that students who participated in tutoring earned more credits than those who did not. As a result, Goal 1 Action 3 in the LCAP provides for intensive tutoring.
- The educational partners were engaged in the process through meetings held by leadership, sharing the data, and eliciting consultation from ELAC, PAC, staff, and student groups. Our discussions centered on equity for all students with regard to learning expectations, obstacles to achieving their potential, and access to quality materials and instructional support, such as tutoring. Additionally, as a professional network of DASS independent study schools, we reviewed graduation data using the fishbone protocol. This helped to reveal root causes. A deeper dive was done with the fishbone protocol with our admin team around credit completion rates, and the potential resource inequities questions helped frame our analysis. We then engaged our educational partners, PAC/ELAC parents, students, teachers, classified, and administration, in the analysis of the data. This led to their support for Goal 1 Action 3, which assigns intensive tutoring to students as a means to improve the graduation rate.

Evidence-Based Intervention – Intensive Tutoring

The State and Federal Programs coordinator supported the school by leading the principal's team through the needs assessment, identifying the evidence-based strategies, and then leading the school improvement team through the selection of evidence-based strategies at their team meeting.

The process for matching the selected intervention with the identified need was a collaborative endeavor through our professional network. We met regularly to study the data. From our needs assessment, we saw that those who attended tutoring earned 50% more credits, and we came to believe that tutoring could potentially close credit completion gaps. We then investigated other best practices for improving graduation.

The California Department of Education (CDE) and the California Collaborative for Educational Excellence (CCEE) provide evidence-based research focused on high-impact tutoring (also known as high-dosage tutoring). Their resources emphasize that tutoring is one of the most effective interventions for accelerating learning, particularly for students performing below academic thresholds. With guidance from CDE and county offices, we searched for solutions to improve our graduation rate, and we were guided to the following evidence-based research. In determining the selection of strategies to improve graduation, we considered and identified the following evidence-based research interventions from these sources:

The CCEE, in partnership with J-PAL North America (MIT), provides a "Learning Path" on implementing evidence-based tutoring. Key Principles of Effective Tutoring: The CCEE highlights that to be effective, tutoring should be:

- o High-dosage/Frequency: Three or more sessions per week.
- o Integrated into the school day: Tutoring is most effective when done during school hours.
- o Trained Personnel: Tutoring is more effective when conducted by teachers or professional tutors rather than volunteers.
- o Small Group/1-on-1: Specific ratios are recommended (no more than 1:4 for middle/high school).

- CCLA (California Collaborative for Learning Acceleration): CCEE administers this initiative, providing an online repository of professional learning for mathematics, literacy, and language development.
- The impact of high-impact tutoring on student attendance: Evidence from a state initiative: Lee, M. G., Loeb, S., & Robinson, C. D. (2025). Ed Working Paper No. 24-1107, Annenberg Institute at Brown University.
- Personalized Learning Initiative Research Team. (2024). Realizing the promise of high dosage tutoring at scale: Preliminary evidence for the field. University of Chicago Education Lab & MDRC.
- Guryan, J., Ludwig, J., Bhatt, M. P., Cook, P. J., Davis, J. M. V., Dodge, K., Farkas, G., Fryer, R. G., Jr., Mayer, S., Pollack, H., Steinberg, L., & Stoddard, G. (2023). Not too late: Improving academic outcomes among adolescents. *American Economic Review*, 113(3), 738–765.
- Anger, S., Christoph, B., Galkiewicz, A., Margaryan, S., Sandner, M., & Siedler, T. (2025). Online tutoring, school performance, and school-to-work transitions: Evidence from a randomized controlled trial (Discussion Paper No. 18307). IZA Institute of Labor Economics.
- Evidence-Based Resources Keeping Students on Track to Graduation: (2012) – Center for Equity and Excellence in Education (LACOE Resource).
- Department of Education: Using Evidence to Strengthen Education Investments (2016).

\_2015.pdfin.

This research on math tutoring, using a randomized controlled trial, involved 2,718 males in the ninth and tenth grades, from the south and west sides of Chicago. They were 90% on free and reduced lunch programs, and 95% were either African American or Hispanic. They demonstrated an increase in math scores by 0.19 to 0.31 standard deviations, as well as increases in math grades by 0.50 standard deviations. The positive impact of tutoring is also supported by the meta-analysis of the studies listed above, with one study in particular stating that there was an effect size for this practice above a 0.33 standard deviation (Nickow, Oreopoulos, Quan, 2020). This is a match for our demographics as well.

The intervention was chosen for three main reasons. First of all, our students are very low in math skills, which inhibits their capacity to earn credits towards graduation. Second, education research points to intensive tutoring as a viable means to increase math performance, which in turn will increase credit completion. Third, increasing students' capacity to earn credits through intensive tutoring will yield higher graduation rates.

Therefore, our professional network team and our educational partners selected the following research-based strategies to implement:

- \* We will provide one-on-one intensive tutoring in math, ELA, and other core subjects as needed.
- \* We will provide positive social incentives for good attendance.
- \* We will track specific data for our seniors through site teams of teachers, counselors, and student retention support staff.
- \* We are going to continue seeking educational partner involvement and input.

We will address the low performance in the areas of graduation, ELA, and mathematics by assigning intensive tutoring to students who demonstrate low scores as determined by their NWEA diagnostic results. These low scores reveal that there are inequities that must be resolved through the implementation of our plan.

Resource Inequities Analysis (Based on data using the 2023, 2024, and 2025 Dashboards as stated in the Reflections – Annual Performance section)

The State and Federal Program coordinator provided guidance to the school through a resource inequities analysis. This showed that funds should be principally directed into LCAP Goal 1 Action 3, because the following groups had significant gaps between the highest student group's graduation rate and other student group rates. Additionally, all of our student groups are below the 68% threshold. The 5-year

graduation rate was 32% in 2025, 32.2% in 2024, and 29% in 2023. This is far below the 68% threshold, but it is an increase of +3.2 points. The student group data used in our analysis is from the Dashboard and is also reported in DataQuest. Below the All-student group was our Hispanic group at 31%, increasing slightly by 1.2%. Our African American students were at 45%, and they increased by 13.4% points. Our English learners and LTELs were both about 21.9% and 22.2%, respectively. The Students with disabilities and the White student group were above the All-student group at 32.8% and 30.6%. Additionally, our socioeconomically disadvantaged were at 30.6% and maintained. Homeless students also saw a decrease of 4.5% to 25.9%. The two or more races student group was at 25.6%. This shows that student groups had a gap of about 20-32 points from the highest student group. This data shows that there are inequities in performance, and our LCAP with its CSI plan is designed to address them in a comprehensive manner with research-based strategies such as intensive tutoring.

We are a DASS charter school, and as a single school LEA, we do not take the federal CSI funds because the LCFF funding for our LCAP is sufficient. Our State and Federal Program coordinator provided support by discussing with school leadership to address the resource inequities and analysis, and agreeing to increase the funding for LCAP Goal 1 Action 3. The guiding framework was from The Alliance for Resources Equity at [www.educationresourceequity.org](http://www.educationresourceequity.org). We also used the Dimensions of Resource Equity – School-level Diagnostic Questions to determine key resource levers that create equitable learning experiences for all students.

Additionally, the inequities rubric, provided by the Los Angeles County Office of Education, was used to help identify if there were any barriers to the following:

- Access to Highly Qualified Teachers
- Access to Counselors
- Access to Student Retention Services
- Access to Tutors
- Access to Interventions, both social-emotional and academic
- Access to Incentives for attendance, graduation, and retention
- Access to Support for high needs English Learners, foster youth, special education, and homeless
- Access to Technology and instructional materials

The resource inequities are being addressed by using LCFF funds to adequately support our LCAP Goal 1 Action 3 for intensive tutoring. This goal provides funding for the tutoring support that will be provided to students as the action is implemented at the school site. Students are identified for tutoring based on NWEA diagnostic results, teacher referral, and self-referral. Tutors connect with students daily and provide academic support in math and other subjects to help students learn and earn credits towards graduation.

All of our students receive a personalized learning program that is unique to each student and is specifically designed to create an optimal path toward graduation. The independent study model assigns a supervising teacher to each student, who develops a close relationship with the student, supports the student from enrollment to graduation, and brings in resources and support staff as needed. Furthermore, the framework for guiding our process was based on Improvement Science in Education from the Carnegie Foundation for the Advancement of Teaching (2015). The Plan, Do, Study, Act (PDSA) model, when done frequently and in collaboration with a network, will help our school improve its outcomes on multiple metrics. Through our professional network, we used a fishbone protocol to determine root causes behind the conditions and drivers that lead to the outcome of a graduation metric. This helped us to define the problem we would like to address. Our discussion focused on what changes we wanted to introduce and why. We plan to collect and share data regularly around credit completion, attendance, and senior graduation progress to help answer the question: “How will we know which change is an actual

improvement?”

The Six Principles of Improvement from the Carnegie Foundation helped provide a foundation for our analysis:

- 1) Make the work problem specific and user-centered: What specifically is the problem we are trying to solve?
- 2) Variation in performance is the core problem to address: What works, for whom, and under what set of conditions?
- 3) See the system that produces the current outcomes: What are the drivers that yield change?
- 4) We cannot improve at scale what we cannot measure: What are the key outcomes that track progress?
- 5) Anchor practice improvement in disciplined inquiry: How will we engage in rapid cycles of Plan, Do, Study, Act (PDSA)? “How will we know which change is an actual improvement?”
- 6) Accelerate improvements through networked communities: How can we accomplish more together?

These guiding principles will be utilized in our professional network throughout the year as we meet to discuss progress and next steps.

### ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The State and Federal Programs coordinator will support the school team and work with them in monitoring and evaluating the effectiveness of their improvement plan throughout the school year.

The process, including metrics, used for monitoring the implementation of the CSI plan is that the State and Federal Programs coordinator will collaborate with the school team to collect tutoring participation data and share it with teachers and school leadership. This will be done every learning period (which is four weeks).

The process, including metrics, used for evaluating the implementation of the CSI plan is to pull tutoring participation counts every learning period and determine if there is an increase in those who have received tutoring. The target is to increase tutoring participation by 50% at the end of the 7th learning period.

The process, including metrics, used for monitoring the effectiveness of the interventions to improve student outcomes, is to pull and analyze credit completion for all students who participated in tutoring. This will be done every learning period.

The process, including metrics, used for evaluating the effectiveness of the interventions to improve student outcomes, is to analyze the credit completion data to determine if it has increased. The target for the credit completion rate is 4.0 credits per learning period. Additionally, we expect that the graduation rates will increase by at least 1% each year.

Additionally, we will collaborate with our professional learning community network and implement the Plan-Do-Study-Act (PDSA) model as our process for continuous improvement. Through a collaborative team of school educators, we will use school data, such as tutoring participation, credit completion rates, attendance, and graduation rates, to inform our inquiry and help focus on results. By monitoring our evidence-based interventions, we can see how seniors and others are utilizing the one-on-one tutoring and social incentives for good attendance. We will also continue to monitor our key metrics, such as credit completion rates and NWEA results, to identify the needs of struggling students who could benefit from additional one-on-one tutoring.

Again, the measure of success for the plan will be based on key indicators such as credit completion, attendance, tutoring contacts, the DASS one-year graduation rate, and the federal 4-5 year graduation rate. Since each student is assigned one-on-one time with an individual teacher, all students who are identified in the system as 12th graders are monitored closely by their teacher for progress toward graduation. Completed coursework and credits earned are monitored every learning period. In addition, counselors monitor all seniors for credits earned. We plan to monitor students early and often so that we can be proactive in responding to students' academic needs. We also plan to do the following: provide support staff to work with students falling behind regularly to address their specific needs; ensure that students in need participate in tutoring with a tutor they can connect to regularly; and promote participation in small group instruction when possible.

To help ensure that we have the whole school community mobilized to support our Comprehensive Support and Improvement plan, we will report results back to teachers, students, parents, and the school board. We will share our progress on our CSI plan at least twice a year. We can build the capacity of our Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC) by sharing the school data progress with them at their meetings and eliciting their feedback as part of our PDSA model. Our school board learns about student progress towards graduation regularly, but with the CSI plan in place, we will ask for their feedback and input as part of our process. We have regular data reports that we can share with teachers and parent groups throughout the year, and we will continue to collaborate and celebrate as students make progress towards graduation.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Staff meetings on the second Friday of each Learning Period focus on reviewing LCAP goals and actions, survey results, CSI and DA (DTA) plans, and monitoring progress on key metrics. Additionally, meetings on the first Friday of each month discuss internal tutoring data, EL strategies and supports, and professional learning topics—all aimed at enhancing student achievement and ensuring staff are aligned with the school’s vision for success.</p>   |
| Principals / Administrators | <p>Regional Principal Meeting Dates:</p> <p>7/7/2025, 7/14/2025, 7/21/2025, 7/28/2025, 8/4/2025, 8/11/2025, 8/18/2025, 8/25/2025, 9/8/2025, 9/15/2025, 9/22/2025, 9/29/2025, 10/6/2025, 10/13/2025, 10/20/2025, 10/27/2025, 11/3/2025, 11/10/2025, 11/17/2025, 12/1/2025, 12/8/2025, 12/15/2025, 1/5/2026, 1/12/2026, 1/26/2026, 2/2/2026, 2/9/2026, 2/23/2026, 3/2/2026, 3/9/2026, 3/16/2026, 3/23/2026, 3/30/2026, 4/13/2026, 4/20/2026, 4/27/2026, 5/4/2026, 5/11/2026, 5/18/2026, 6/1/2026, 6/8/2026, 6/15/2026, 6/22/2026, 6/29/2026</p> <p>Principals and administrators regularly collaborate with regional leaders to review reporting requirements, emerging school needs, available resources, and LCAP progress. They contribute to the development and refinement of the LCAP through ongoing data analysis, identification of inequities, and consideration of future needs. The leadership team also meets quarterly to analyze data and monitor progress toward LCAP and school goals.</p> |
| Students                    | <p>Dates: various dates – during student meetings, PAC / ELAC meetings, in Small Group Instruction classes, and while meeting with the school counselors.</p>   |

| Budget Adoption and Local Indicator Report | 5/26/26, The governing board adopted the 2026-2027 Budget, and they were presented with the Local Indicators Report.   |

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The 2026–2027 LCAP was developed through an interactive process with educational partners. Goals, actions, and the use of LCFF funds were shaped through consultation with the community and educational partners to address student needs identified through required metrics, local indicators, and partner feedback. Updates and additions to the LCAP reflect this ongoing input. The following summarizes the educational partner feedback that informed the plan.

Parent Feedback: Through a variety of feedback channels, parent and primary caregiver (PCG) feedback recognized a high level of support from teachers, frequent and effective communication, as well as consistent, individualized student attention as some of the strongest aspects of the school. A parent of a 9th grader said this regarding support and engagement: "they love it here, and the school is much better than the previous schools my daughter was enrolled at". Concerning communication, one parent of a 10th grade student said "I am very satisfied because the teachers' communication has also rubbed off on my son, who is now making a real effort to communicate better. Thank you." Another parent of a 10th grader said this of communication: "I am extremely impressed with the communication from the school and can't thank you all enough for what the staff has done for my son. The confidence he has gotten back from going to this school, THANK YOU." Parents and PCGs often reported feeling welcomed and supported by teachers and staff and lauded staff for individualized instruction, social-emotional learning (SEL) support. Parents and PCGs often reported high levels of appreciation for the care, connection, engagement, and encouragement teachers and staff provide to students. Another parent reported: "We are 100% satisfied, students are very happy, we've never found another school like this". When asked to provide input regarding the possible uses of the Learning Recovery Emergency Block Grant (LREBG), parents reacted favorably to using funds for tutoring and academic intervention programs, Summer and after-school enrichment, Additional teachers or instructional aides, and Mental-health and social-emotional supports . This feedback aligns to LCAP Actions 1.2, 1.4, 1.8 and 4.1.

Continuing areas of growth identified by parents include expanding the Certified Nursing Assistant (CNA) CTE pathway, arts programming, and broader career exploration opportunities. Parents also expressed a desire for increased access to tutoring, after-school academic supports, and parent workshops. Many parents noted that additional Small Group Instruction (SGI) options would be beneficial. One parent shared, "One on one learning or small groups works best for my child. You guys help build his confidence, and it shows." Parents also provided input on improving credit completion, including strengthening communication and offering more structured learning time, such as extended or after-hours tutoring opportunities. In addition, Parents expressed interest in more opportunities to engage with the school through events, regular updates, and increased interaction between home and school. This feedback aligns to LCAP Actions 1.2, 1.3, 1.5, 2.1, 4.1, and 4.2.

**Student Feedback:** Students shared feedback through multiple channels, including quarterly PAC/ELAC meetings, counselor sessions, Student Voice meetings, and surveys. Students consistently reported that teachers are engaging, motivating, respectful, and welcoming, while also holding them accountable for completing credits and progressing toward graduation. Students also highlighted strong academic and social-emotional support, along with effective communication from staff. Representative student feedback includes: "I am 100% satisfied with my school, I couldn't ask for more."; "I feel supported academically and emotionally."; "I'm pretty satisfied with the communication that goes through with my school and teacher."; and "I am doing great here and love all the support." This feedback aligns to LCAP Actions 1.2, 1.3, 1.4, 3.2, and 4.1.

Students reported a desire for more access to instructional time, including more hours on campus, additional tutoring, and more SGIs. Some students reported wanting better access to transportation. They also expressed interest in more extracurricular activities, hands-on learning experiences, internships, job placement, and career pathways. This feedback aligns to LCAP Actions 1.2, 1.3, 1.5, 2.1, and 3.1.

**Administration Feedback:** Administrators regularly reviewed, discussed, and analyzed data during administrative meetings and evaluated the overall effectiveness of the LCAP, ensuring that goals and metrics were well-aligned and addressed the needs of students and the school, while improving overall student outcomes. Administrators participated in the continuous cycle of improvement through active improvement team PLC membership, systems implementation, and program monitoring. This included participation in the DA (DTA) / CSI Improvement Team PLC which conducted fishbone root cause analyses, needs assessments, S.M.A.R.T. goal implementation, and periodic data protocols to inform actions concerning low graduation rates and underperforming subgroups. Administrators shared out findings, actions, and course corrections with all education partners via periodic meetings with external oversight activities such as the county office of education, staff meetings, quarterly PAC/ELAC meetings, and board meetings, inviting input. This consultation and feedback directly informed LCAP Actions 1.2, 1.3, and 1.4.

**Teacher Feedback:** Teachers provided feedback through frequent and regular staff meetings and surveys where they are encouraged to participate and provide input concerning the breadth of school operations including process improvement. Overall, teachers report high satisfaction with the school, leadership, and relationships, as well as the progress of the school. Teachers expressed being concerned regarding low graduation rates, low student reclassification rates, student motivation strategies, and better professional development. Teachers reported very positive feedback regarding support for CTE programs, especially the Certified Nursing Program, and expressed wanting to see more pathways developed. Teachers also expressed strong support for student participation in Dual Enrollment courses. This feedback aligns to LCAP Actions 1.1, 1.3, 1.4, 1.5, 1.8, and 2.1.

**School Board Feedback:** Board members expressed satisfaction with the principal reports, the progress made in credit completion and student outcomes, and the actions taken to address key areas such as growth in CTE and JAG, student engagement and social-emotional support. They also expressed appreciation regarding the annual survey data highlighting school climate, safety, connectedness, and efforts to increase parent participation. This feedback aligns to LCAP Actions 1.3, 1.5, 2.1, 3.2, and 4.1.

**Public Feedback:** Time was designated during board meetings to receive public input; however, no public feedback has been received to date.

# Goals and Actions

## Goal

| Goal # | Description   | Type of Goal |
|--------|---|--------------|
| 1      | <p>Increase Academic Progress:</p> <p>This is a focus goal for increasing the academic progress of all students, especially the English Language Learners, low-income, and foster youth students who struggled over the last year. In the next three years, SDWIHS will have mitigated the negative learning loss and the school will see improvements in the NWEA, EL reclassification, credit completion, and graduation rates.</p> | Focus Goal   |

State Priorities addressed by this goal.

|  |
|--|
| <p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 5: Pupil Engagement (Engagement)</p> |
|--|

An explanation of why the LEA has developed this goal.

As a result of our CSI status and our analysis of the key state and local data, SDWIHS has determined the need for a focus goal on academic performance for all English Language Learners, low-income, and foster youth students. This new goal specifically addresses low-key metrics such as the English Language Learner reclassification, credit completion, and graduation rates for the student groups. The student data revealed performance gaps between the "All" Student Group and the English Language Learners, low-income, and foster youth students. Each year academic growth is measured using the NWEA MAP assessment. Using the NWEA MAP assessment this year revealed performance gaps amongst student groups. SDWIHS understands the gaps that need to be closed for the students, and this focus goal was carefully designed to support the students' academic needs with targeted interventions and tutoring.

Educational partners were consulted and involved in the LCAP process, promoting positive engagement, buy-in, and trust. The school knows that additional tutoring, interventions, and counseling support will help address the learning loss over the next few years.

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal.

Ratings were based on an analysis of both input from educational partners and metrics. Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

Action 1.1: English Learners support staff, interventions, and materials.  
Implementation Status: 4 - Full Implementation

SDWIHS has found that English Language Learner students need additional support and scaffolds to be successful. SDWIHS will address this need by providing an ELL paraprofessional or other trained bilingual support staff, such as ELL tutors, ELD Leads, and ELD Small Group Instructors. In addition, supplementary materials for the ELD program will be provided as needed. Students will receive individualized support based on their specific English Language proficiency level. SDWIHS uses an Individualized English Language Development Plan (IELDP) in

collaboration with students and families. Implementing the designated and integrated ELD program is an integral part of the comprehensive program for every English Language Learner. No substantive difference in the planned action compared to the actual implementation.

Action 1.2: All academic interventions and program materials.

Implementation Status: 4 - Full Implementation

Through a multifaceted approach targeting instructional support and individualized student assessments, our intervention program delivers evidence-based academic support through one-on-one tutoring, Small Group Instruction classes, and differentiation. We address the varying proficiency levels of incoming students through collaborative planning among educators and the strategic use of data-driven interventions. No substantive difference in the planned action compared to the actual implementation.

Action 1.3: Tutoring and supports for students.

Implementation Status: 4 - Full Implementation

SDWIHS's Comprehensive Support and Improvement (CSI) Plan is focused on increasing student participation in tutoring, with a particular emphasis on fourth- and fifth-year seniors. A key priority in the coming years is to strengthen individual student engagement in tutoring sessions and ensure that each student builds a meaningful connection with a supportive tutor. Our CSI improvement team meets regularly to review data and guide strategic actions to support the plan's success. This year, our primary goal was to boost tutoring participation among fourth- and fifth-year students, identify additional supports, and foster strong, consistent relationships with caring tutors. No substantive difference in the planned action compared to the actual implementation.

Action 1.4: Counseling students towards graduation and materials.

Implementation Status: 4 - Full Implementation

Counselors maintain regular contact with students and play a critical role in supporting their academic and post-secondary success. During a student's senior year, counselors guide each student through the FAFSA process, help them define post-secondary goals, and assist with college applications. In collaboration with staff, counselors also provide social-emotional support and coordinate college and career field trips, guest speakers, and other post-secondary planning activities. Additionally, counselors work closely with the San Diego County Office of Education's Foster Youth Services Coordinating Program and Homeless Education Services to offer targeted support for SDWIHS students. There was no substantive difference between the planned actions and their actual implementation.

Action 1.5: Student activities that increase learning efforts.

Implementation Status: 4 - Full Implementation

SDWIHS students are recognized for their efforts in meaningful and motivating ways. Recognition takes place during award nights, school celebrations, field trips, and enrichment experiences. These events have proven to inspire students to remain engaged, productive, and motivated to accelerate their learning. SDWIHS believes this action has positively influenced student work completion and contributed to increased graduation rates. There was no substantive difference between the planned action and its actual implementation.

Action 1.6: Teachers and staff are qualified and appropriately assigned.

Implementation Status: 5 - Full Implementation and Sustainability

SDWIHS is committed to employing fully credentialed teachers, and staff assignments are regularly reviewed to ensure there are no misassignments. Currently, there are no teacher vacancies. All new teachers engage in a structured onboarding process and are paired with a mentor teacher who provides ongoing support and guidance throughout the year. There was no substantive difference between the planned action and its actual implementation.

Action 1.7: Professional Development for English Learners.  
Implementation Status: 4 - Full Implementation

Professional development for supporting English Language Learners is ongoing. Staff attend professional learning through the California Association for Bilingual Educators. During staff meetings, the EL Department provides workshops on scaffolding the curriculum and SDAIE strategies. The conferences and workshops ensure all students are provided with support and services to succeed with the curriculum. No substantive difference in the planned action compared to the actual implementation.

Action 1.8: LREBG - Intervention programs and support personnel to support students  
Implementation Status: 3 - Initial Implementation

SDI has received LREBG funds and is in the initial planning stages. We have reviewed student needs and analyzed relevant data to identify target areas for intervention. These funds will be used to provide additional professional development, strengthen instructional strategies and student engagement, expand tutor support, close learning gaps for EL, LTEL, FY, and LI students, and enhance intervention programs such as tutoring and small group instruction. Social-emotional supports will also be strengthened to ensure students are engaged, supported, and on track for on-time graduation.

Overall Successes:

SDWIHS achieved progress in multiple areas. NWEA growth in both Reading and Math improved, credit completion rates increased, and the one-year DASS cohort graduation rate exceeded the target for most subgroups. Credit completion growth increased over last year for all subgroups. Graduation rates increased for English Learners, Low Income, Hispanic, White, and LTEL students. The CSI/DA improvement team engaged in a continuous cycle of improvement, including data analysis, root cause analyses, needs assessment, and the implementation of practices meant to bolster improved student outcomes. Overall the school demonstrated a high level of staff commitment to student success.

Overall Challenges:

While EL reclassification rates increased from 7% to 8% over last year, it remains below the baseline of 8%, which is still lower than the Year-3 target of 8.6%. ELPI performance declined by -2.2%, keeping that metric in orange territory. Credit completion rates, though improved, fell short of the Year-3 target of 4.0. The school continues to face systemic challenges in closing academic gaps for unduplicated student groups, particularly in light of trauma and socio-economic hardship. Continued focus on evidence-based interventions, social-emotional supports, and targeted EL strategies remains critical.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards our English Language Learners, low-income, and foster youth students. We were able to meet our budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF and LREBG funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal One helped make progress towards the LEA's goal: To support the progress in meeting the goal to improve student academic achievement.

Action 1.1: English Learners support staff, interventions, and materials.

Effectiveness of Action: 2 - Somewhat Effective

Metrics: English Learner Progress Indicator and Reclassification Rate

Analysis Statement:

Our English Learner reclassification rate increased over last year from 7% to 8%, but is still 1% below baseline and is slightly below the target of 8.6%. The ELPI status also dropped by 2.2%, maintaining its status in the orange performance band. Additionally, LTEL progress maintained its relative position with a small reduction of 1.8%, keeping it in the orange performance band. As a result, this action is considered somewhat effective. While the school did not meet its performance goals, the decline was not significant, and improvement is anticipated in the 2026–27 school year. Based on a local needs assessment and supporting performance data, SDWIHS will continue to provide targeted support through trained bilingual staff, including EL paraprofessionals, ELD Leads, and ELD Small Group Instructors. These supports are expected to improve outcomes for English Learners. Additionally, supplementary instructional materials will continue to be provided as needed to enhance the ELD program.

Action 1.2: All academic interventions and program materials.

Effectiveness of Action: 2 - Somewhat Effective

Metric: NWEA MAP

Analysis Statement:

The NWEA First Test Average (Metrics 1.3 and 1.5) showed an increase of +8.40 points in Reading Lexile and a decrease of -83.16 points in Math Quantile compared to the previous year. This increase in Reading Lexile is corroborated by robust growth which met and exceeded the Year 3 growth goal of 50% across all subgroups. While An overall Reading Lexile growth rate increased slightly over last year, an overall Reading Lexile growth rate of +34.9% over the initial baseline was observed. Despite the overall First Test Math Quantile Average being lower than the previous year, the overall growth rate among retested students remains +35.3% above baseline. Coupled with Math Quantile Growth exceeding Year 3 targets across all subgroups, these data suggest that while there may be fluctuation, successful implementation of

academic interventions and program materials has been effective over the long term. This is further characterized by the fact that all subgroups demonstrated significant growth gains over baseline in both Reading and Math.

Action 1.3: Tutoring and supports for students.

Effectiveness of Action: 2 - Somewhat Effective

Metric: Credit Completion Rate

Analysis Statement:

SDWIHS's credit completion rate increased from a baseline of 2.91 to 3.78, with growth observed across all subgroups. Further, this represents an increase in Average Credit Completion over last year of +.68 credits, showing continual, incremental growth over time. We are approaching our 3-Year target of 4.0, and we our collaborative CSI/DA/DTA Team remains committed to a cycle of continuous improvement whereby we are monitoring, implementing, and adjusting our SMART Goal to improve credit completion through a combination of high impact tutoring support and additional interventions. Research, internal data, and improvement team efforts determined that while high impact tutoring is very important and integral to our teaching context, it is not in and of itself the only intervention necessary to accelerate progress and increase credit completion. We are continuing to expand and refine tutoring services for all, including 4th/5th year students and unduplicated students. Additionally, tutors are proactively engaging these students, providing targeted academic support to help close learning gaps and improve outcomes.

Action 1.4: Counseling students towards graduation and materials.

Effectiveness of Action: 3 - Effective

Metric: DASS 1-Year Graduation Rate

Analysis Statement:

A DASS 1-Year Graduation Rate of 94.7% was noted, being +16.3% over baseline, and exceeding the 3-Year target overall. We will continue to implement grade-level graduation initiatives that keep students focused on their post-secondary goals. All students have a personalized learning plan, which they regularly review with staff, including counselors, to ensure they remain on track for graduation. Once students reach senior-level credits, they receive robust support and preparation to successfully complete their high school journey.

Action 1.5: Student activities that increase learning efforts.

Effectiveness of Action: 3 - Effective

Metric: Credit Completion Rate

Analysis Statement:

Our credit completion rate increased significantly from 2.91 to 3.78 credits per learning period. We have seen that credit recognition activities are having a positive effect on credit completion. Moving forward, we will work collaboratively to monitor which strategies most effectively motivate students to increase credit completion, with a focus on the connection between satisfactory academic progress and meaningful enrichment activities. Our improvement team is actively engaged in the process of determining additional interventions such as enhanced graduation planning, roster growth plans, retention system upgrades, and broadened, more effective communication protocols.

Action 1.6: Teachers and staff are qualified and appropriately assigned.

Effectiveness of Action: 3 - Effective

Metric: Highly Qualified with Full Teaching Credential

Analysis Statement: 100% our teachers are highly qualified. This represents a +2% increase. There were two, long-term individuals who were previously in tutoring or paraprofessional roles and who had been promoted to intern teaching positions. Both now have their teaching credentials. We believe that it's important to have staff that are appropriately assigned and who are fully qualified. Our admin team believes that the strategies in this action have been effective and we will continue to implement them with fidelity.

Action 1.7: Professional Development for English Learners.

Effectiveness of Action: 2 - Somewhat Effective

Metric: English Learner Reclassification Rates and English Learner Progress Indicator

Analysis Statement: Although our English Learner Reclassification grew from last year from 7% to 8%, it is still below the baseline of 9%. Additionally, our ELPI and LTEL slightly declined, keeping both in the orange on the California dashboard. We maintain the belief that professional development opportunities for our EL staff help students develop new skills and competencies and are instrumental in the improved reclassification rate and ELPI over time. A large majority of our students are LTELs who are new to the school program and lack foundational academic language skills. We believe that continuing to provide professional development and investing in our new curriculum and instructional strategies will continue to move the needle forward. Our EL staff can offer tools to support growth and development in the areas where students require the most assistance.

Action 1.8: LREBG - Intervention programs and support personnel to support students

Effectiveness of Action: 2 - Somewhat Effective

Metric: 1.3 Reading Lexile and 1.4 Mathematics Quantile

Analysis Statement: We will support our students who struggle with academic performance by providing intervention programs and support personnel to address their learning gaps. LREBG funding is directed towards academic and socioemotional interventions for all students as needed. The needs assessment substantiated findings from the 2024 Dashboard related to low academic performance in mathematics and English Language Arts. A review of state and local data, such as NWEA Map results, indicates that our students have average initial NWEA MAP scores at the following grade level: 982.4 = 6th grade level in Reading and 783.84 = 5th grade level in Mathematics. This action directly addresses the need to engage students with comprehensive interventions and academic support in order to improve their learning gaps. This action aligns with the allowable uses of LREBG funds in the areas of learning recovery programs to increase proficiency, tutoring, as well as others listed in the grant. Studies have shown that students who participate in tutoring and other socioemotional supports are more likely to realize gains in their academic performance. Additionally, research shows that students who engage in mathematics intensive tutoring demonstrate an increase in math scores by 0.19 to 0.31 standard deviations. We will monitor our students' participation in tutoring each learning period and use NWEA scores to assess performance.

Our English Learner reclassification rate increased over last year from 7% to 8%, but is still 1% below baseline and is slightly below the target of 8.6%. The ELPI status also dropped by 2.2%, maintaining its status in the orange performance band. Additionally, LTEL progress maintained its relative position with a small reduction of 1.8%, keeping it in the orange performance band. As a result, this action is considered only somewhat effective. While the school did not meet its performance goals, the decline was not significant, and improvement is anticipated in the 2026–27 school year. Based on a local needs assessment and supporting performance data, SDWIHS will continue to provide targeted support through trained bilingual staff, including EL paraprofessionals, ELD Leads, and ELD Small Group Instructors. These supports are expected to improve outcomes for English Learners. Additionally, supplementary instructional materials will continue to be provided as needed to enhance the ELD program.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 1.1: English Learners support staff, interventions, and materials.

This action was considered Somewhat Effective. As mentioned above, a needs assessment was conducted and together with performance data, we resolved to continue providing targeted support in order to facilitate positive growth and outcomes for English Learners. This will be accomplished through ensuring students have frequent and meaningful access to bilingual staff, EL paraprofessionals, ELD Leads, as well as ELD small group instructors. We believe continuing these measures will show EL student progress over time.

Action 1.2: All academic interventions and program materials.

This action was considered Somewhat Effective, even though the data show solid growth rates in both Reading and Math across all subgroups. This is because there was a decrease in First Test Quantile Average of -83.16 points overall, also seen within most subgroups. We know that the growth metric is more representative of reality, however, we recognize the importance of monitoring both metrics closely and ensuring we continue to provide robust Reading and Math intervention supports such as targeted high impact tutoring and strong academic planning to our students, more especially non duplicated students.

Action 1.3: Tutoring and supports for students.

Through regular data analysis and reflective discussions, the CSI / DA Improvement Team identified the need to add additional supports in addition to high impact tutoring in order to help increase credit completion among 4th/5th year students, unduplicated students, and students in general. These include prescriptive, targeted tutoring assignments, enhanced graduation planning, roster growth plans, retention system upgrades, and broadened, more effective communication protocols. The CSI and DA SMART Goals were slightly modified to accommodate these data-driven decisions. The Improvement Team noted improvements from last year in how tutors guided students in setting achievable academic goals and maintaining appropriate pacing through their coursework.

Action 1.7: Professional Development for English Learners.

This action had a positive impact on student performance, but we still fell short of our reclassification and ELPI goal. Staff would benefit from increased dosage of professional development on Sheltered Instruction Observation Protocols to better learn how to support English Learners. SIOP training equips teachers with strategies to make academic content more accessible while promoting English language development through scaffolding, interactive instruction, and integrated language support. This leads to improved comprehension, academic performance, and reclassification rates for English Learners. We also believe that EL professionals would benefit from increased attendance to conferences such as CAFE.

Action 1.8: LREBG - Intervention programs and support personnel to support students

This was Somewhat Effective. Following a collaborative evaluation and needs assessment, we identified opportunities to strengthen the connection between NWEA MAP results and student performance in English Language Arts and mathematics. We recognize the importance of engaging students with comprehensive interventions and academic support in order to improve their learning gaps, including strengthening social-emotional supports to ensure students are engaged, supported, and on track for on-time graduation. Moving forward, possible adjustment will be to implement additional professional development, strengthen instructional strategies and student engagement, expand tutor support, close learning gaps for EL, LTEL, FY, and LI students, and enhance intervention programs such as tutoring and small group instruction. Next steps include monitoring students' participation in tutoring each learning period and use NWEA scores to assess performance.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

## Actions

| Action # | Title  | Description   | Total Funds    | Contributing |
|----------|--|---|----------------|--------------|
| 1.1      | Long-term English Learners (LTEL) and English Learners support staff, interventions, and materials | <p>Our ELD program follows the CA EL Roadmap for effective practices, and we provide additional support for ELs struggling with academic proficiency.</p> <ul style="list-style-type: none"> <li>• Paraprofessionals in ELD SGI classes.</li> <li>• EL Small Group Instruction (SGI).</li> <li>• English learner tutors.</li> <li>• Individualized English Language Development Plan (IELDP).</li> <li>• Access to other effective intervention programs such as System 44.</li> </ul> <p>Upon reviewing the local and state assessment data by subgroup, SDWIHS has identified achievement and performance gaps and programmatic/instructional needs for the English Language Learner student population. The English Language Learner students show the most opportunity for continued academic improvement based on the most current state and local ELA and math data as reflected in the metric tables. Based on a local needs assessment, SDWIHS has found that the English Language Learner students need additional support and scaffolds to be successful. SDWIHS will address this need by providing an ELL paraprofessional or other trained bilingual support staff such as ELL tutors, ELD Leads, and ELD Small Group Instructors. In addition, supplementary materials for the ELD program will be provided as needed. Students will receive individualized support based on their specific English Language proficiency level. SDWIHS uses an Individualized English Language Development Plan (IELDP) in collaboration with students and families. Implementing the designated and integrated ELD program is an integral part of the comprehensive program for every English Language Learner. To meet each ELL student's linguistic, academic, and proficiency goals, the following programs have been developed: the newcomer program, structured English immersion, and mainstream English Language Arts. The support staff will provide specific language instruction through vocabulary and language development to support literacy skills and language acquisition. SDWIHS anticipates the student performance on CAASPP</p> | \$2,613,500.00 | Yes          |

| Action # | Title  | Description  | Total Funds    | Contributing |
|----------|--|--|----------------|--------------|
|          |  | <p>ELA and math and English Language Learner annual growth assessment to improve for these students. This action is designed to meet the needs most associated with English Language Learner students. Each student's language proficiency and academic progress will be monitored. SDWIHS expects their ELPAC scores and reclassification rates to increase because of each student's personalized academic support from qualified personnel.</p>   |                |              |
| 1.2      | All academic interventions and program materials | <p>Academic interventions will be provided for our English learners, LTELs, low-income and foster youth students struggling with academic proficiency which will help them improve their skills.</p> <p>This action will address the following reds on the CA Dashboard API:<br/>           ELA: All students, English learners, Hispanic, White, low-income<br/>           Math: All students, English learners, Hispanic, White, low-income</p> <p>These student groups have average initial NWEA MAP scores at the following grade level:<br/>           Reading:<br/>           EL: 759 = 4th grade level<br/>           LI: 946 = 6th grade level<br/>           Math:<br/>           EL: 665 = 5th grade level<br/>           LI: 833 = 6th grade level</p> <p>To meet these needs, the LEA will provide the following:</p> <ul style="list-style-type: none"> <li>• NWEA MAP is used as a diagnostic to appropriately place students in interventions.</li> <li>• Increase monitoring of ELA and math courses assigned.</li> <li>• Collaborate around the effectiveness of intervention courses for ELA and math by increasing data tracking among all teachers.</li> <li>• Professional development for targeted instruction in intervention courses, such as, but not limited to SGI, Literacy, Read 180, Math 180.</li> </ul> <p>As demonstrated in the Identified Needs and Metrics sections, State and local assessments in ELA and Math indicate that some of the lowest-performing students are the English Language Learners, low-income, and foster youth student groups when compared to the All student group.</p> | \$3,314,674.00 | Yes          |

| Action # | Title                              | Description   | Total Funds    | Contributing |
|----------|------------------------------------|---|----------------|--------------|
|          |                                    | <p>SDWIHS will provide English Language Learners, low-income, and foster youth students with academic interventions such as small group instruction and intervention classes to improve their academic skills and accelerate their academic achievement. These actions have effectively increased students' mathematics and reading assessments and their NWEA scores. SDWIHS expects all students with low proficiency scores to benefit, making this action schoolwide. SDWIHS expects the NWEA math and reading scores to increase each year.</p>  |                |              |
| 1.3      | Tutoring and supports for students | <p>Tutors will be provided for our English learners, LTEL, low-income, and foster youth students who need additional support in completing their coursework and earning credits toward graduation. This action supports our Comprehensive Support and Improvement plan,</p> <ul style="list-style-type: none"> <li>• Tutors are available for additional support.</li> <li>• Intensive tutoring for credit completion.</li> <li>• Improve tutor-student relationship to increase participation.</li> <li>• Access to tutors is both virtual and in-person.</li> <li>• Professional learning communities collaborate around student progress towards graduation.</li> <li>• Increase teacher referrals to tutoring and other supports.</li> </ul> <p>To address our CSI status and improve our graduation rate, we will increase our tutoring support. This action is expected to reduce resource inequities among our lowest student groups' graduation rates and credit completion rates. As demonstrated in the Identified Needs and Metric section, graduation rates are among the LI, FY &amp; EL student groups. To address the achievement gaps, tutors will provide support for our English Learners, low-income and foster youth students who are credit deficient. This will help them complete their assignments and increase the rate at which they finish their courses. Local and virtual tutors are actively engaged in reaching out to our English Learners, low-income, and foster youth students. Tutors deliver a critical level of support that we have seen be successful in helping address academic gaps effectively and improve student progress towards graduation. We expect that these actions will increase graduation rates for our English Learners, low-income. and foster youth student groups. However, because we expect that all students</p> | \$1,772,000.00 | Yes          |

| Action # | Title  | Description  | Total Funds  | Contributing |
|----------|--|--|--------------|--------------|
|          |  | showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our credit completion rate to increase each year.  |              |              |
| 1.4      | Counseling students towards graduation and materials | <p>This action is designed to address Differentiated Assistance requirements. Eligibility for Differentiated Assistance:</p> <p>EL: Red status for the 4-5-year Graduation Rate (Priority 5), and red in ELA, Math (Priority 4).<br/> Hispanic: Red status for the 4-5-year Graduation Rate (Priority 5), and red in ELA, Math (Priority 4).<br/> LI: Red status for the 4-5-year Graduation Rate (Priority 5), and red in ELA, Math (Priority 4).<br/> White: Red status for the 4-5-year Graduation Rate (Priority 5), and red in ELA, Math (Priority 4).</p> <p>Counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will connect frequently and as needed with high-needs students, to help meet social-emotional needs. Additionally, we will do the following:</p> <ul style="list-style-type: none"> <li>• Closely monitor and track the progress of potential grads, then collaborate and adjust around the results.</li> <li>• Provide additional support for potential graduates starting at the beginning of the year.</li> <li>• Counselors will meet more regularly with future grads.</li> <li>• Counselors help address obstacles to graduation.</li> </ul> <p>Some of the lowest graduation rates are among the English Language Learners, low-income, and foster youth student groups compared to the "All Student Group," as shown in the Identified Needs and Metrics sections. To address this need, counselors will connect with English Language Learners, low-income, and foster youth students to effectively monitor, and guide students to achieve their graduation goals. The counselors will continue to manage and support English Language Learners, low-income, and foster youth students with any obstacles. SDWIHS expects all students could benefit from these actions, making it a schoolwide action. This action has been effective for many students in helping them successfully graduate and will increase graduation rates for our student groups.</p> | \$828,000.00 | Yes          |

| Action # | Title   | Description   | Total Funds     | Contributing |
|----------|---|---|-----------------|--------------|
| 1.5      | Student activities that increase learning efforts           | <p>Students participate in a comprehensive recognition program that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will also do the following:</p> <ul style="list-style-type: none"> <li>• Improve student participation in meaningful school activities and collaborate around best practices.</li> <li>• The school will acknowledge student achievement and celebrate student successes to get buy-in.</li> <li>• The school will also boost student morale by increasing student-led events and activities creating a positive learning environment.</li> <li>• Group activities that celebrate progress</li> <li>• Enrichment experiences and field trips.</li> </ul> <p>English Language Learners, low-income, and foster youth students often complete fewer credits than expected. English Language Learners, low-income, and foster youth students show decreased motivation resulting in a lower credit completion rate. To address this need, students participate in a comprehensive recognition program that helps support their scholastic efforts. Students are recognized for their efforts in various ways that are meaningful to them. The recognition includes celebrations, field trips, and enrichment experiences. SDWIHS has witnessed how these actions inspire students to continue to be productive and strive to accelerate their learning. These actions will positively impact attendance, work completion, and graduation rates. SDWIHS expects all students could benefit from these actions, making it a schoolwide action. SDWIHS anticipates credit completion to increase to 4 credits per learning period.</p> | \$180,000.00    | Yes          |
| 1.6      | Teachers and staff are qualified and appropriately assigned | <p>All students will have access to fully credentialed teachers who are appropriately assigned to teach in their subject area of competence. Any teacher misassignments will be monitored and rectified so that students are served according to the legal requirements.</p> <p>All students with disabilities will be provided a free, appropriate, public education, including all required designated instructional services outlined in their Individualized Education Plan as well as required by the education code and related regulations.</p>  | \$16,320,210.00 | No           |

|----------|--|--|--------------|--------------|
| 1.7      | Professional Development to Support English Learners and LTELs | <p>Our ELD program follows the CA English Learner Roadmap for effective practices, and we provide professional development for staff to help serve English learners and LTELs with their language acquisition. We will do the following:</p> <ul style="list-style-type: none"> <li>• Professional development for effective EL strategies, such as SIOP.</li> <li>• Increase monitoring of progress for our EL students and collaboration around the results.</li> <li>• Professional development for implementing the EL Tool Kit.</li> <li>• Paraprofessionals in ELD SGI classes trained.</li> <li>• EL Tutors trained.</li> <li>• Training in Individualized English Language Development Plan (IELDP).</li> <li>• Professional learning communities, workshops, and conferences for staff.</li> </ul> <p>To stay above the state average for the English Language Learners' reclassification rate, SDWIHS will need additional support from certificated and classified staff who employ effective strategies that will help improve a student's ELPAC scores. To address this need, ELL students will be served by trained support personnel such as ELL paraprofessionals/tutors, ELD Leads, and ELD Small Group Instructors. In addition, supplementary materials for the ELD program will be provided as needed. Staff training may include developing an ELL Tool Kit, implementing effective ELL strategies using Sheltered Instruction Observational Protocol (SIOP), and scaffolding strategies such as modeling, building schema, and contextualization. Additionally, the staff will participate in workshops, conferences, and professional learning communities to build the capacity of staff to increase student performance. SDWIHS expects its ELPAC scores and reclassification rates to increase because of each student's personalized academic support from qualified personnel.</p> | \$1,000.00   | Yes          |
| 1.8      | LREBG - Intervention programs and                              | We will support our students who struggle with academic performance by providing intervention programs and support personnel to address their learning gaps. LREBG funding is directed towards academic and  | \$217,421.00 | No           |

|----------|---------------------------------------|---|-------------|--------------|
|          | support personnel to support students | <p>socioemotional interventions for all students as needed. The needs assessment substantiated findings from the 2024 Dashboard related to low academic performance in mathematics and English Language Arts. A review of state and local data, such as NWEA Map results, indicates that our students need support in the areas of English Language Arts and mathematics. This action directly addresses the need to engage students with comprehensive interventions and academic support in order to improve their learning gaps. This action aligns with the allowable uses of LREBG funds in the areas of learning recovery programs to increase proficiency, tutoring, as well as others listed in the grant. Studies have shown that students who participate in tutoring and other socioemotional supports are more likely to realize gains in their academic performance. Additionally, research shows that students who engage in mathematics intensive tutoring demonstrate an increase in math scores by 0.19 to 0.31 standard deviations. We will monitor our students' participation in tutoring each learning period and use NWEA scores to assess performance.</p> |             |              |

# Goals and Actions

## Goal

| Goal # | Description  | Type of Goal |
|--------|--|--------------|
| 2      | <p>Students will Gain Skills for College and Career-Readiness:</p> <p>This is a broad goal for helping students gain skills for college and career-readiness for all students, including low-income, English Language Learners, and foster youth students.</p> | Broad Goal   |

State Priorities addressed by this goal.

|  |
|--|
| <p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 2: State Standards (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 7: Course Access (Conditions of Learning)</p> <p>Priority 8: Other Pupil Outcomes (Pupil Outcomes)</p> |
|--|

An explanation of why the LEA has developed this goal.

This goal was developed to meet the needs and interests of the student population. Most of the students choose an independent study program to change their stories and increase their viability after graduation. SDWIHS supports the interests of students in their pursuit of a career through the completion of CTE coursework and with community partnerships. All students receive a state standards-aligned curriculum and college-bound students are encouraged to complete the A-G requirements. SDWIHS expects these metrics to show improvement for all student groups.

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.

Implementation Status: 4 - Full Implementation

Students have access to a Certified Nursing Assistant medical CTE pathway as well as coursework in Child Development, Business Management, Food Service and Hospitality, Information Support and Services, and Patient Care. The registrar works closely with the site to determine who is close to completion. In addition, students are assigned A-G courses on their annual course plan. No substantive difference in the planned action compared to the actual implementation. We plan to implement several more CTE pathways in the near future.

Action 2.2: Professional development addressing English Learners, low income, and foster youth students.

Implementation Status: 4 - Full Implementation

The professional learning for English Learners, low-income, foster, and homeless youth has been two-fold. Staff have attended conferences, and the staff have been provided professional development during workshops. The EL Department has participated in EL workshops and conferences, and the counselors routinely attend workshops and work closely with SDCOE's Foster Youth Services Coordinating Programs and Homeless Education Services. In addition, the counselors attend the ASCA Conference, which provides additional ways of supporting students with social-emotional support. The Data Regional Instructional Specialist meets with each point of contact to review and train how to run the ELPAC assessment and other state assessments. No substantive difference in the planned action compared to the actual implementation.

Action 2.3: Technology Access and Support.

Implementation Status: 5 - Full Implementation and Sustainability

SDWIHS provides laptop computers for every student who needs one to complete their coursework. A laptop ensure all students can receive their online materials and communicate with their teacher. Chromebooks are ordered as new students enroll to meet the site's needs. Hotspots are provided as needed. No substantive difference in the planned action compared to the actual implementation.

Action 2.4: Support for Standards-based Curriculum and Instruction

Implementation Status: 5 - Full Implementation and Sustainability

Each curriculum department works together to improve the quality of the standards-based curriculum. The departments work together to provide coaching and implementation support. The staff can attend conferences to further their pedagogy. Some staff participate in the Improvement Team PLC. This team has developed SMART Goals to increase student achievement, credit completion, and tutor engagement. No substantive difference in the planned action compared to the actual implementation

Action 2.5: Educational materials for an effective program.

Implementation Status: 5 - Full Implementation and Sustainability

The Regional Instruction Specialist works with teachers and site administrators to determine schoolwide professional learning. The school decides if the curriculum needs revision and what new courses must be developed. New textbooks and supplemental materials are available to teachers and students. In addition to textbooks and supplementary materials, teachers use manipulatives to teach the curriculum. No students are lacking materials. No substantive difference in the planned action compared to the actual implementation.

## Action 2.6: Safe and Secure Facilities

Implementation Status: 5 - Full Implementation and Sustainability

The facilities department uses the Facility Inspection Tool (FIT) and reports their findings. This year the facility earned an overall rating of exemplary. Our site is trained by our Director of Safety and Security on an annual basis. We also have a safety coordinator on site who completes monthly safety checks, ensuring that our site is secure. Additionally, all staff members complete annual training modules on safety and security. No substantive difference in the planned action compared to the actual implementation.

### Overall Successes:

Our school successfully implemented the actions for our goals without any significant deviations. At 3.1%, graduates with A-G course completion grew beyond both the baseline as well as the 3-year target. Additionally, graduates with A-G course completion and also a CTE Pathway completion grew by 1.2%, which is above baseline. CTE participation in the Certified Nursing Assistant program and proficiency in professional skills continue to remain high. CTE course completion rate was 71.5%, which well exceeds both the baseline as well as the 3-year target. Standards implementation is strong, and the added coaching support for teachers is robust. We have a dedicated team of employees who bring passion and care to the learning environment. Our school fosters a safe, inclusive learning environment, offering students personalized learning experiences with ample opportunities to engage with teachers individually and in small group settings or through tutoring. Additionally, we've improved CTE and dual-enrollment offerings while encouraging students to pursue post-secondary opportunities, whether in a career or higher education.

### Overall Challenges:

Our school faced some challenges in the implementation of Goal 2 this year. We saw a slight drop in those meeting ELA and Math standards from last year, though still above baseline. We maintained our orange dashboard status concerning the College and Career Indicator, though above baseline. Additionally, our Dual Enrollment took a slight dip, though we expect it to bounce back with the expanded offerings. Despite these challenges, our focus remains on preparing college-ready students, and we anticipate improvements in our CCI indicator over the next year as our efforts to increase dual enrollment participation begin to show results.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards our English Language Learners, low-income, and foster youth students. We were able to meet our budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.

Effectiveness of Action: 3 - Effective

Metrics: Work Readiness and CTE courses, CTE and A-G (Metrics 2.1 - 2.5)

Analysis Statement: Our Work Readiness and CTE data indicate that 70 students enrolled in Pro Skills, 1,430 enrolled in JAG coursework (the functional, default preference to Pro Skills), and 209 in CTE courses. Compared to the baseline, this represents an increase of 59 students in CTE and 769 students in JAG. Additionally, our college readiness, as measured by A-G completion, increased by +1.2%. Despite this increase, continued efforts are needed to strengthen outcomes in this area. Our collaborative team of administrators, along with the CSI/DA Improvement Team, conducted a needs assessment using school data and will work to increase the counselors' capacity to support these courses for our students. We believe that by continuing to foster a Professional Learning Community and strengthening our whole-school approach, we will see continued progress in the future. Research shows that students who participate in CTE programs and develop professional skills are better equipped to succeed in the workforce.

Action 2.2: Professional development addressing English Learners, low income and foster youth students.

Effectiveness of Action: 2 - Somewhat Effective

Metrics: CAASPP for English Language Arts and Math (Metric 2.6)

Analysis Statement: CAASPP scores show that 27% of 11th-grade students were proficient in ELA, reflecting a +7% increase from baseline. Math proficiency reflected a +1% increase from baseline, and Science scores showed a +2% increase over baseline. There is some slight fluctuation year over year, but the overall trend is upward. Our team of administrators, in collaboration with the CSI/DA Improvement Team, conducted a fishbone protocol and needs assessment using school data and will continue to work together as a Professional Learning Community to more effectively monitor student preparation for the CAASPP. We recognize the challenges the exam poses for students who are below grade level, and we understand that thorough preparation is key to helping students feel ready and confident. Professional development for staff will remain a central focus of this action, as we know that highly effective teachers are essential to improving student performance.

Action 2.3: Technology Access and Support.

Effectiveness of Action: 3 - Effective

Metric: 100% of students offered Chromebook upon enrollment.

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above shows all of our students receive computers so that they can complete coursework. Our admin team and teachers believe that the strategies in this action have been effective, and we will continue to monitor and provide access to technology for all our students. All English Language Learners, low-income, and foster youth students will have 100% access to the curriculum and instructional support, including access to effective technology platforms and support programs. Hotspots are provided on a case by case needs basis.

Action 2.4: Support for Standards-based Curriculum and Instruction.

Effectiveness of Action: 2 - Somewhat Effective

Metric: CDE Standards Implementation Rubric.

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above shows our high-quality standards-based curriculum continues to be fully implemented. We are currently at 4.88, which is full implementation of CA Standards. Although close, we are not yet at 5.0, which is full implementation and sustainability. Our teachers and administration work collaboratively to consistently improve the quality of our curriculum and its implementation. Each year we have increased, but we did not reach sustainability in all categories.

Action 2.5: Educational materials for an effective program.

Effectiveness of Action: 3 - Effective

Metric: Regional Monitoring by Instructional Specialists

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above shows all of our sites have adequate materials and are constantly being monitored by regional instructional specialists. Each year the school takes inventory of its materials to make sure that they are current, and we continually purchase state-adopted texts and supplemental materials. Teachers have a variety of educational materials and manipulatives to support reading, writing, and math.

Action 2.6: Safe and Secure Facilities.

Effectiveness of Action: 3 - Effective

Metric: Facilities Inspection Tool (FIT)

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above indicates that all areas evaluated by the Facility Inspection Tool received an exemplary rating. Additionally, our school has a Director of Safety and Security who makes sure that we comply with our safety plan. The school survey also shows that nearly all our students and teachers feel safe. Our school staff and parents agree that this is an important action to continue into the next school year.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 2.2: Professional development addressing English Learners, low income and foster youth students.

We recognize the monumental importance of ensuring that professional development opportunities exist for teachers, paraprofessionals, and tutors who work with English Learners. We are committed to ensuring that educators have access to high quality English Learner professional development conferences and workshops. We will redouble our efforts to deepen this commitment.

Action 2.4: Support for Standards-based Curriculum and Instruction.

The dashboard indicates that we have not achieved the score of 5 in CTE (4), Physical Education Model Content Standards (4), World Language (4), and Visual and Performing arts (4). As we progress in the broadening of our offerings, we will carefully address each of these over time, slowly increasing our overall score of 4.88 to 5.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Actions

| Action # | Title   | Description   | Total Funds  | Contributing |
|----------|---|---|--------------|--------------|
| 2.1      | Career and college-readiness for English Language Learners, low-income and foster youth students    | <p>Students participate in a comprehensive recognition program that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will do the following:</p> <ul style="list-style-type: none"> <li>• Increase marketing and monitoring of course assignments for A-G, CTE, and dual enrollment.</li> <li>• Counselors and teachers will promote CTE programs and pathways offered.</li> <li>• WIOA, job training, and placement as much as possible.</li> <li>• College and Career days as well as field trips, promote student interest and exploration.</li> </ul> <p>Some of the lowest college and career-readiness rates are among the English Language Learners, low-income, and foster youth student groups who fall below the state average of 16.3% for graduates completing a CTE pathway and 43.8% completing A-G courses. To address this need, the English Language Learners, low-income, and foster youth students complete a career inventory and a professional skills course to align the student's interests with coursework, CTE Pathways, and post-secondary goals. SDWIHS considers local employment opportunities and student interests to help guide students into practical coursework. Support personnel, partnerships, and materials are essential to tailor and implement the curriculum for students. SDWIHS has witnessed many of the students be successful in these programs. SDWIHS expects all students with low proficiency will benefit, making this an LEA-wide action. These actions will positively impact the college and career-readiness rates for the student population, and the A-G and CTE completion rates will increase each year.</p> | \$801,000.00 | Yes          |
| 2.2      | Professional development addressing English Language Learners, low-income and foster youth students | <p>Students participate in a comprehensive recognition program that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will do the following:</p> <ul style="list-style-type: none"> <li>• Additional professional development to support teachers in meeting the needs of EL, LTEL, FY and LI students.</li> <li>• Regional trainings, workshops/seminars.</li> <li>• Best practices shared in PLC.</li> <li>• Outside conferences that have an impact on At-promise youth.</li> </ul>   | \$10,000.00  | Yes          |

| Action # | Title                       | Description  | Total Funds  | Contributing |
|----------|-----------------------------|--|--------------|--------------|
|          |                             | <p>As demonstrated in the Identified Needs and Metrics sections, the CAASPP results in ELA, math, and science, CA Dashboard results show that many of the lowest-performing students are the English Language Learners, low-income, and foster youth student groups compared to the "All" Student Group. To address this issue, professional development for the teachers and staff is essential for the progress of the English Language Learners, low-income, and foster youth students. To build the staff capacity and meet the needs of the students, the staff will attend training, conferences, workshops, and work within professional learning communities. There has been a positive impact on the opportunity youth due to training in trauma-informed practices. SDWIHS anticipates increased professional collaboration and learning, and state assessment results for English Language Learners, low-income, and foster youth students will rise. SDWIHS expects all students with low proficiency will benefit, making this an LEA-wide action. SDWIHS expects that these actions will have a positive impact on students with CAASPP scores and the CA Dashboard will increase by 1 level.</p>      |              |              |
| 2.3      | Technology Access & Support | <p>All English Learners, LTELs, low-income, and foster youth students will have access to effective technology platforms and support programs. This is an ongoing effort to help them to access their curriculum and instructional support. We will do the following:</p> <ul style="list-style-type: none"> <li>• Upon enrollment provide every student with a computer.</li> <li>• Provide every student with a hotspot as necessary.</li> <li>• Provide students and teachers with tech support to ensure access to curriculum and instruction.</li> </ul> <p>All English Language Learners, low-income, and foster youth students will have 100% access to the curriculum and instructional support, which involves access to effective technology platforms and support programs. Teachers and staff continually support students' access to technology and provide training and materials to close gaps. SDWIHS has seen this action be effective with the students during the last year. SDWIHS expects all students would benefit from this action, making this an LEA-wide action. SDWIHS expects these actions to positively impact the students by sustaining 100% access to the educational program.</p> | \$496,000.00 | Yes          |

| Action # | Title  | Description   | Total Funds     | Contributing |
|----------|--|---|-----------------|--------------|
| 2.4      | Support for Standards-based Curriculum and Instruction | <p>All English Learners, LTELs, low-income and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. We will do the following:</p> <ul style="list-style-type: none"> <li>• VAPA coursework will be increased.</li> <li>• Regional leadership for curriculum and instruction will participate in local curriculum review.</li> <li>• Engage in dialogue in collaborative groups.</li> <li>• Provide input on aligning standards to instructional practices.</li> <li>• Analyze data results to develop and improve practices and processes.</li> </ul> <p>All English Language Learners, low-income, and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. We use the implementation score for the standards-based curriculum from the CDE Standards Implementation Rubric. To address this, SDWIHS will continue to collaborate and develop a high-quality, personalized curriculum to support the needs of each student. SDWIHS expects all students would benefit from this action, making this an LEA-wide action. SDWIHS expects these actions to positively impact the educational program resulting in a score of 5.0 on the CDE rubric.</p> | \$420,000.00    | Yes          |
| 2.5      | Educational materials for an effective program         | All students will have access to all materials to participate fully in enrolled courses. An effective education program relies on quality materials for all subject areas. SDWIHS continues to purchase state-adopted texts and update supplemental materials regularly to meet the students' academic needs.   | \$16,999,070.00 | No           |
| 2.6      | Safe and secure facilities                             | SDWIHS provides learning facilities for the students that are safe and secure. SDWIHS monitors the sites each year using the Facility Inspection Tool (FIT).  | \$7,521,520.00  | No           |

# Goals and Actions

## Goal

| Goal # | Description   | Type of Goal                 |
|--------|---|------------------------------|
| 3      | <p>Increase Student Retention:</p> <p>This is a maintenance goal for student retention. It was developed to address disengaged students and support the student to graduate. The school has a safe, welcoming environment, with a positive school climate, which effectively encourages students to remain engaged in their schooling experience.</p> | Maintenance of Progress Goal |

State Priorities addressed by this goal.

|   |
|---|
| <p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 5: Pupil Engagement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p> |
|---|

An explanation of why the LEA has developed this goal.

|   |
|---|
| <p>The school measures the core program through its high retention, graduation, and return to district rate. The mission is to provide supports so students do not drop out of school. The staff has been trained in trauma-informed practices and the staff knows how to effectively address student retention. In consultation with students, families, and staff, SDWIHS will continue to provide a collaborative educational environment for the success of the students.</p> |
|---|

## Measuring and Reporting Results

| Metric # | Metric                                       | Baseline  | Year 1 Outcome   | Year 2 Outcome  | Target for Year 3 Outcome                                   | Current Difference from Baseline                        |

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Three supported the progress in meeting the following goal: Increase Student Retention.

### Action 3.1: Student Retention

Implementation Status: 5 - Fully Implemented and Sustainability

Our entire school focuses on retention as a measurement of success. Our Student Retention Support (SRS) team consistently supports students in tiers of engagement by making calls, texting, emailing, and collaborating with all staff to identify and remove barriers that may impact a student's attendance and participation. Data and Design is an online platform used to communicate with students and families. SRS's work diligently to close gaps in communication between student/family and teaching staff. This often calls for home visits in an attempt to connect and encourage students to attend their weekly synchronous instruction appointments, as well as complete their coursework. No substantive difference in the planned action compared to the actual implementation.

### Action 3.2: Social and Emotional Supports

Implementation Status: 5 - Fully Implemented and Sustainability

At the heart of our mission is nurturing the mental and socio-emotional health of our students alongside their academic growth. For instance, we have mental health partners in the community that connect students and their families with personalized mental health and recovery services. Our HOPE Program provides vital resources and parenting support to students with children. Additionally, all staff are trained in trauma-resilient strategies and the school is now an accredited Trauma Resilient Educational Community to support holistic student development. No substantive difference in the planned action compared to the actual implementation.

### Action 3.3: Access to Transportation

Implementation Status: 5 - Fully Implemented and Sustainability

Providing transportation to students positively impacts their attendance and credit completion. Students are provided with daily and monthly bus passes. These passes are used to attend school and return home from school. No substantive difference in the planned action compared to the actual implementation.

Action 3.4: Access to Nutrition

Implementation Status: 5 - Fully Implemented and Sustainability

Students receive nutrition at the school daily. Providing students with daily nutrition ensures all students are ready to work and receive instruction. All students have access to quality nutrition, food services, and alternative ways of delivering meals to homes if needed. Providing food helps students remain connected to the school. No substantive difference in the planned action compared to the actual implementation.

Overall Successes: Our school successfully implemented the actions outlined for our goals, with no substantial differences between planned and actual outcomes. The implementation of our student retention strategies has been highly effective, as demonstrated by our Student Success metric, led by our dedicated Student Retention Support (SRS) team. Through proactive engagement methods such as calls, texts, emails, and home visits, we have successfully identified and removed barriers to student attendance and participation. Furthermore, our socioemotional support programs have played a critical role in student success by offering initiatives like Experiential Learning Opportunities and Resiliency Programs. These programs provide essential resources and help students navigate both academic and personal challenges. Additionally, our commitment to offering nutritious food options at school sites has fostered a strong sense of community while mitigating hunger-related distractions, ensuring a conducive environment for learning.

Overall Challenges: Our school faced challenges in addressing the wide scope of students' social-emotional and mental health needs, which were exacerbated by external factors, as well as gaps in ELA and Math proficiency. Despite our ongoing efforts to implement all of the actions outlined in Goal 3, the continuing rise in students' social-emotional needs and homelessness—both within our student population and society at large—have created additional barriers. While we have continued to make improvements in our Goal 3 performance, this progress has not been reflected in student performance on standardized testing to the degree we had expected.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services; because actual expenditures were approximately the same as budgeted expenditures and principally directed towards our English Language Learners, low-income and foster youth students. We met our budgeted expenditures as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Three helped make progress towards the LEA's goal: To Increase Student Retention.

#### Action 3.1: Student Retention

Effectiveness of Action: 2 - Somewhat Effective

Metric: Retention Rate

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above indicates that our retention rate of 71.6% fell below our baseline of 84.6%. We take this very seriously, and we are committed to finding innovative solutions to complex challenges and use a variety of communication methods to stay connected with students and their families. We fully expect this metric to rebound this year and continue to grow. In addition to regular communication, home visits are made to ensure students not only hear that we value them but also feel our support in person.

#### Action 3.2: Social and Emotional Supports

Effectiveness of Action: 3 - Effective

Metric: Success Rate

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above indicates a strong success rate of 94.2%, which exceeded the baseline metric as well as the 3-year target of 80%. Our continued success in this metric can be attributed to our significant investment in counselors, social-emotional support services, community resources, and innovative solutions. For example, we ensure that counselors are available during school to address urgent social-emotional needs. Our staff members have been trained in trauma-informed practices. Additionally, LCAP funding has allowed us to expand elective programs and create positive school culture initiatives, such as student clubs, field trips, school events, and awards ceremonies. Parenting students benefit from our Helping Our Parents in Education (HOPE) program, which provides essential services and childcare items—such as diapers, formula, and clothing—at no cost, ensuring they have the support they need to succeed both as parents and students.

#### Action 3.3: Access to Transportation

Effectiveness of Action: 3 - Effective

Metric: Attendance Rate

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above indicates that our attendance rate was 93.1%, which exceeded both the baseline of 92.3% as well as the 3-year target of 90%. We will continue to analyze our current practices and make adjustments to our plans to ensure we grow this metric over time. Attendance is an important metric for us and we know our students face a multitude of barriers to their education. For those facing significant transportation challenges, we partner with local city transit to ensure they can attend school. These investments have continued to positively impact student attendance, and we plan to continue offering these services.

#### Action 3.4: Access to Nutrition

Effectiveness of Action: 3 - Effective

Metric: Non-completer Rate

Analysis Statement: A thorough analysis of the actions and data presented in the metric section above indicates that our non-completer rate was 13%, which is higher than our expected outcome of 10%. This result seems to be commensurate with this year's drop in retention rate as noted above. Despite this, we do provide regular opportunities for students to access nutritious meals offered by the school. Throughout the year, our leadership teams organize workshops, school meetings, informational seminars, and events, all of which include complimentary

meals for students and their families. Additionally, we maintain stocked food pantries that students can access if they are struggling with food insecurity at home. For these reasons, this action remains effective as we provide a vast and varied access to nutrition.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

**Action: 3.1: Student retention**

This metric was updated to be an end-of-year measurement, however the current measurement fell short of the baseline. We believe this to be a temporary situation and, based on our review, we will continue to strengthen tiered re-engagement strategies and expand proactive communication with students and families to increase engagement, address attendance barriers, and better support student retention and graduation. Additionally, we will provide charter-wide professional development on proven, data-backed strategies for increasing retention specific to our teaching context.

**Action 3.2: Social and Emotional Supports**

This metric was updated to be an end-of-year measurement.

**Action 3.4 Access to Nutrition**

This metric was updated to be an end-of-year measurement. 100% of students who needed nutrition received it. We therefore consider the action effective. However, because the correlated metric yielded unexpected results, we understand the need to keep closely monitoring the Non-Completer Rate and make adjustments. We expect this metric to rebound with the Student Retention Rate.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

| Action # | Title             | Description   | Total Funds    | Contributing |
|----------|-------------------|---|----------------|--------------|
| 3.1      | Student Retention | <p>All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their retention. We will do the following:</p> <ul style="list-style-type: none"> <li>• Our student retention support personnel will engage in active outreach.</li> <li>• Student retention services will be trained.</li> <li>• Provide additional services that support retention.</li> </ul> <p>The English Language Learners, low-income, and foster youth student population has some of the lowest attendance rates. Ensuring that the English Language Learners, low-income, and foster youth students attend and remain in school is foundational to the program. SDWIHS serves</p> | \$1,095,909.00 | Yes          |

| Action # | Title                         | Description  | Total Funds    | Contributing |
|----------|-------------------------------|--|----------------|--------------|
|          |                               | <p>English Language Learners, low-income, and foster youth students with high mobility rates who are typically behind in credits and have been out of school for about a semester or more. Ensuring that English Language Learners, low-income, and foster youth students are attending and remaining in school is critical to meeting the needs of each student. SDWIHS has trained personnel who provide outreach and monitor students so that their attendance is regular. SDWIHS also has a comprehensive recognition program. SDWIHS will continue this practice because the data shows that the school has been successful with the majority of the students each year. SDWIHS expects all students would benefit from this action, making this an LEA-wide action. SDWIHS expects these actions to positively impact the retention rate, which will stay above 90% each year.</p>   |                |              |
| 3.2      | Social and Emotional Supports | <p>All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve the success rate. We will do the following:</p> <ul style="list-style-type: none"> <li>• Our SEL programs are offered as necessary.</li> <li>• Additional counseling, support personnel, and professional development.</li> <li>• Providing additional services that support student success such as yoga and SEL courses.</li> </ul> <p>During the pandemic, the English Language Learners, low-income, and foster youth student population sustained the most social-emotional trauma, which impacted the success (graduation rate), retention, and re-matriculation rate. SDWIHS will increase the trauma-informed practices that have helped address many of the social-emotional needs of English Language Learners, low-income, and foster youth students. Programs that positively impact students include TREC, HOPE, counseling, support personnel, social workers, professional development, sports, and yoga. SDWIHS will continue to provide and build on these actions and services for the English Language Learners, low-income, and foster youth student groups. SDWIHS expects all students would benefit from this action, making this an LEA-wide action. SDWIHS expects these actions will have a positive impact on the success rate, which will stay above 90% each year.</p> | \$1,846,000.00 | Yes          |

| Action # | Title                    | Description  | Total Funds  | Contributing |
|----------|--------------------------|--|--------------|--------------|
| 3.3      | Access to Transportation | <p>All English Learners, LTELs, low-income, and foster youth students will be supported with transportation services to improve their attendance. We will do the following:</p> <ul style="list-style-type: none"> <li>• Provide metro or bus passes to facilitate their access to public transportation.</li> <li>• Provide additional transportation services that support attendance in other areas.</li> </ul> <p>The English Language Learners, low-income, and foster youth students are frequently without access to transportation to school or other related programs. Good attendance is critical for student learning. SDWIHS provides metro passes, bus services, and other alternative transportation options to mitigate this obstacle. SDWIHS will continue to offer this additional service for students because SDWIHS has seen it improve their access to school and programs. These actions will positively impact the attendance rates of English Language Learners, low-income, and foster youth students. SDWIHS expects all students would benefit from this action, making this an LEA-wide action. SDWIHS expects these actions to positively impact attendance, and the average attendance rate will increase above 85% each year.</p> | \$75,000.00  | Yes          |
| 3.4      | Access to Nutrition      | <p>All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their completer rate. We will do the following:</p> <ul style="list-style-type: none"> <li>• Ensure that students have access to food on site.</li> <li>• Provide additional services that support nutrition.</li> </ul> <p>Food services for English Language Learners, low-income, and foster youth students are a serious concern. SDWIHS plans to offer nutrition to all student groups to mitigate the drop-out (non-completer) for the independent study program. To address this, SDWIHS will ensure all students have access to quality nutrition and food services and provide alternative ways of delivering meals to homes. These actions will decrease the non-completer rates for the English Language Learners, low-income, and foster youth student groups. SDWIHS expects all students would</p>  | \$185,512.00 | Yes          |

|----------|-------|--|-------------|--------------|
|          |       | benefit from this action, making this an LEA-wide action. SDWIHS expects these actions to positively impact the non-completer rate, which will remain below 10% each year. |             |              |

# Goals and Actions

## Goal

| Goal # | Description   | Type of Goal                 |
|--------|---|------------------------------|
| 4      | <p>Increase Educational Partner Engagement:</p> <p>This is a maintenance goal for increasing educational partner engagement. SDWIHS believes parent engagement is pivotal for their student's academic progress. Participation is encouraged to promote positive school outcomes.</p> | Maintenance of Progress Goal |

State Priorities addressed by this goal.

|   |
|---|
| <p>Priority 3: Parental Involvement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p> |
|---|

An explanation of why the LEA has developed this goal.

|  |
|--|
| <p>Involving parents in their student's orientation, awards, school activities, surveys, and parent advisory, has a positive impact on the student's school experience. With the educational partners' consultation, SDWIHS made this goal maintenance of progress goal. There was a decrease in the school data for this goal due to the pandemic. However, SDWIHS expects this to resume in a few years.</p> |
|--|

## Measuring and Reporting Results

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Four supported the progress in meeting the following goal: Increase Educational Partner Engagement.

Action 4.1: Community/Parent Liaison and Meaningful School Activities

Implementation Status: 5 - Full Implementation and Sustainability

The school has had the following activities: Orientation, Open House, Parent Advisory Committee Meetings, English Learner Parent Advisory Meetings, and Community Events. Community partners actively engage with the school throughout the year by providing student workshops and on-site mentorships. No substantive difference in the planned action compared to the actual implementation.

#### Action 4.2: Translation and Outreach Services

Implementation Status: 5- Full Implementation and Sustainability

Written and verbal communication in parents' primary language is essential for parent meetings, student orientations, and parent-teacher conferences. Written and verbal translation ensures critical information is conveyed to parents. Letters and other communications are translated into the student's and family's preferred language. No substantive difference in the planned action compared to the actual implementation.

#### Action 4.3: Educational Partner Engagement

Implementation Status: 5 - Full Implementation and Sustainability

The community liaison helps increase coordination and communication with the school community. This year, parents were encouraged to participate in the activities: Open House, parent-teacher conferences, PAC/ELAC meetings, and school events. The community liaison develops and works with community partners to provide the school with events and opportunities for students and families. Additionally, through workforce partnerships, students can access employment and job training.

Overall Successes: Our school was able to successfully engage Educational Partners and gathered stronger feedback for our LCAP, CSI, and DA plans and improvement team activities. We received informative and actionable feedback from educational partners through surveys, parent/teacher conferences, and various school events including PAC/ELAC. New student orientations and school events were held in-person and virtually to accommodate the needs of its educational partners. PAC and ELAC meetings were held quarterly. Participation in the annual survey increased this year, and our community involvement and partnerships were maintained. SDWIHS implemented the actions in Goal 4 - Increase Educational Partner Engagement.

Overall Challenges: Our school continually works to improve how educational partners can remain engaged and provide input to the school program. While attendance at PAC/ELAC and other school events is growing, it has been difficult to find Educational Partners who are committed to being long term partners in our PAC and ELAC. This is where the most authentic feedback is gathered and because attendance and participation is transitory, parents often do not actively participate and share input without first being asked. We want to build the capacity of our parents to be a more active school partner. SDWIHS increased the number of participants who completed the annual school survey, which helped provide insight into the LCAP goals and other school processes.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no real material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, because actual expenditures were greater than budgeted expenditures and principally directed towards our English Language Learners, low-income, and foster youth students. We were able to meet our budgeted expenditures, as shown in the 2025-2026 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Four helped make progress towards the LEA's goal: To support the progress in meeting the goal to Increase Educational Partner Engagement.

#### Action 4.1: Community/Parent Liaison and Meaningful School Activities

Effectiveness of Action: 3 - Effective

Metric: Participation Counts

Analysis Statement: We had a baseline parent participation count of 4,222 and noted a current count of 3,113 participants. This was larger than the 3-year target, was markedly higher than last year's turnout of 2,730, however it did not reach the baseline metric. With an enrollment of 2929, these results are encouraging and suggest repeat visits. SDWIHS will continue to survey Educational Partners and offer a variety of meaningful school activities for their participation. At 1,153, attendance at our PAC and ELAC far exceeded our baseline of 129 as well as last year's result of 620. This is almost nine times the baseline metric. This is a direct result of our school's continued commitment to improving and sustaining outreach efforts. SDWIHS will continue to provide a community liaison who does outreach to promote the school as a welcoming place for everyone.

#### Action 4.2: Translation and Outreach Services

Effectiveness of Action: 3 - Effective

Metric: PAC/ELAC Participation

Analysis Statement: Our PAC/ELAC participation shows that many English Language Learners, low-income, and foster youth students speak a language other than English at home. The English Language Learners, low-income, and foster youth students require effective communication and outreach regarding the educational programs and opportunities at the school. Translation into the families' primary languages is critical for two-way communication efforts. Additionally, outreach and communication services are essential to the school programs.

#### Action 4.3: Educational Partner Engagement

Effectiveness of Action: 3 - Effective

Metric: School Survey Data

Analysis Statement: Our school survey data show that 99% of parents feel encouraged to participate. This is a +1% increase from the previous year and it is 9% above our expected outcome of 90%. Of the students surveyed, 99% report feeling safe at school. 98% report feeling connected, which is down by 1% from last year, but still well above both the baseline and the 3-year target. In order to maintain these positive outcomes, we continually reflect on our practices and collaborate as a team in ensuring a positive school environment. Our PAC/ELAC and Leadership Team believes that the strategies in this action have been upgraded for the next year. Staff also report feeling safe at 99%, which is up by 1% from last year, and connected to the school at 99%, also up by 1% from last year.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no changes made as a result of our reflections on prior practice.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

## Actions

| Action # | Title   | Description  | Total Funds  | Contributing |
|----------|---|--|--------------|--------------|
| 4.1      | Community/Parent Liaison and Meaningful School Activities | <p>All parents of English learners, LTELs, low-income, and foster youth students will have access to meaningful parent activities and events at school. We will do the following:</p> <ul style="list-style-type: none"> <li>• Community liaison who does outreach.</li> <li>• Provide meaningful parent activities.</li> <li>• Promote events and activities for parents to participate in at school.</li> </ul> <p>The parents/guardians of English Language Learners, low-income, and foster youth students are some of the least involved educational partners. Parent/guardian and other educational partner engagement are essential to effective schooling for English Language Learners, low-income, and foster youth students. SDWIHS knows that parents/guardians and their families have difficulty engaging in meaningful school activities. SDWIHS will continue to provide a community and parent liaison who does outreach to promote the school as a welcoming place for everyone. The school will continue to provide this action because we know that parent/guardian engagement is essential and helpful in promoting the value of education in the family. These actions will increase the involvement of the parents/guardians of English Language Learners, low-income, and foster youth students in completing the surveys and parent/guardian meeting attendance. SDWIHS expects all credit deficient students to benefit from this action, making this an LEA-wide action. SDWIHS expects the number of participants to be above the school enrollment each year.</p> | \$494,000.00 | Yes          |
| 4.2      | Translation and Outreach Services                         | <p>All English Learners, LTELs, low-income and foster youth students, and parents will be supported with actions and services to improve their translation needs. We will do the following:</p> <ul style="list-style-type: none"> <li>• Our translation services are capable of translating for multiple languages in writing.</li> <li>• Oral translation services are also provided at school events.</li> <li>• Provide additional translation and outreach services as necessary.</li> </ul>  | \$7,000.00   | Yes          |

| Action # | Title                          | Description  | Total Funds | Contributing |
|----------|--------------------------------|--|-------------|--------------|
|          |                                | <p>Many English Language Learners, low-income, and foster youth students speak a language other than English at home. The English Language Learners, low-income, and foster youth students require effective communication and outreach regarding the educational programs and opportunities at the school. Translation into the families' primary languages is critical for two-way communication efforts. Additionally, outreach and communication services are essential to the school programs. SDWIHS will continue to support these efforts at school events and translate materials into multiple languages. These actions will increase parent/guardian attendance and increase course completion and graduation rates for the English Language Learners, low-income, and foster youth student population. SDWIHS expects these actions will increase the English Language Learners, low-income, and foster youth students' sense of connectedness. SDWIHS expects all students to benefit from this action, making this an LEA-wide action. SDWIHS expects students to report over 90% feel connected to school each year.</p>  |             |              |
| 4.3      | Educational Partner Engagement | <p>Educational partner engagement is essential to a positive school experience and outcomes, especially for our English learners, LTELs, low-income, and foster youth. We will do the following:</p> <ul style="list-style-type: none"> <li>• Provide meaningful educational partner engagement activities.</li> <li>• Provide two-way communication opportunities.</li> <li>• Provide additional services that support virtual communication and materials as necessary.</li> </ul> <p>The English Language Learners, low-income, and foster youth student population has some of the lowest attendance rates. School activities and events are important to the English Language Learners, low-income, and foster youth students and their families so that they feel connected to the school's purpose and have increased engagement. Expenses for these include but are not limited to communications, outreach, materials, and transportation. SDWIHS will continue this action because the school has witnessed the positive impact on our school where barriers to these vital functions exist. The school works to ensure that engagement opportunities are accessible and meaningful for all educational partners, including families of students with disabilities, through supportive communication</p> | \$3,500.00  | Yes          |

| Action # | Title | Description   | Total Funds | Contributing |
|----------|-------|---|-------------|--------------|
|          |       | <p>practices, virtual participation options, translation services, and individualized supports when needed. Sustaining educational partner engagement requires communications, outreach, materials, activities, and transportation expenses. SDWIHS will continue this action because the school has witnessed a positive impact on the school when barriers to access are removed for English Language Learners, low-income, and foster youth students. SDWIHS expects all students to benefit from this action, making this an LEA-wide action. SDWIHS expects parents/guardians will report over 90% feel encouraged to participate each year, based on the school survey.</p> |             |              |

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

| Goal and Action # | Identified Need(s)   | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis   | Metric(s) to Monitor Effectiveness  |
|-------------------|--|---|---|
| 1.2               | <p><b>Action:</b><br/>All academic interventions and program materials</p> <p><b>Need:</b><br/>Students who come to us are typically about 5-grade levels or more below in their academics. Based on their NWEA scores we provide a personalized learning environment and interventions targeted to meet their academic gaps. As shown in the metrics section above,</p> | <p>To address this, student NWEA performance will be used to place students in their coursework, and students will be tested twice per year for growth. These modifications will ensure that low-performing subgroups on the ELA and Math are being supported, graduating students can complete their courses, and students will be able to meet their post-secondary goals.</p> <p>Additionally, we will provide professional development for teachers, paraprofessionals, and</p> | <p>We will closely monitor progress on our Math and Reading interventions programs. The following metrics are applicable:<br/>(NWEA ELA all students, EL, low-income, Hispanic, White)<br/>(NWEA ELA all students, EL, low-income, Hispanic, White)</p> |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis  | Metric(s) to Monitor Effectiveness   |
|-------------------|---|--|--|
|                   | <p>our English learners and socioeconomically disadvantaged students are far below grade level.</p> <p>Additionally, we examined the needs of our student groups in the red on the 2023 CA Dashboard, which were our English learners, Hispanic, White, and socioeconomically disadvantaged student groups in both ELA and Math. We found that our Hispanic and White students were also low-income students. On the 2024 CA Dashboard for ELA and mathematics, both of our LTELs and students with disabilities were in the red. Our 2025 Dashboard for ELA was red for these groups: English learners, Hispanic, socioeconomically disadvantaged, students with disabilities, and White. For mathematics, these student groups were in the red: was red for these groups: English learners, LTELs, Hispanic, socioeconomically disadvantaged, students with disabilities, and White. (Metrics are reported in Goal #2).</p> <p>Teacher and parent feedback indicated that they support the importance of the intervention programs to increase students' English and math skills.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>tutors, focused on the implementation of intervention programs. Training to include effective strategies and pedagogies proven to increase student achievement. We will develop and implement any additional intervention programs for students who require additional support. These programs may involve one-on-one tutoring, small-group instruction, or specialized resources. We will collaborate on student progress data in these interventions.</p> <p>Throughout the school year and on an ongoing basis, students are assessed in NWEA as they enroll in our program. They will be given appropriate interventions as necessary, and their learning will be supported by a variety of support staff.</p> <p>We expect that these actions will be effective at increasing students' mathematics and reading assessments. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis.</p> | <p>CA Dashboard Academic Indicator results for ELA and Math</p> <p>We will also consider input from the parents of participating students to enhance the quality of the programs provided.</p> |
| 1.3               | <b>Action:</b><br>Tutoring and supports for students  | To address this, we will continue to implement a detailed PLC plan to focus on students who are 30 credits or less from graduating for CSI and   | We will closely monitor progress on our credit completion rates for all of   |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis  | Metric(s) to Monitor Effectiveness  |
|-------------------|---|--|---|
|                   | <p><b>Need:</b><br/>To address the requirements for Comprehensive Support and Improvement (CSI), we examined the needs of our student groups in the red on the 2023 CA Dashboard for their Graduation Rate. These were our all-student group, African American, Hispanic, Two or More Races, White, English learners, homeless, and students with disabilities. We noticed that these students were also in the socioeconomically disadvantaged group, which was in the red. The 2024 Dashboard had these student groups in the red for graduation rate: African-American, White, Hispanic, two or more races, English learners, LTELs, homeless, socioeconomically disadvantaged, and students with disabilities. Additionally, students who enroll with us are typically about 30 or more credits behind in school.</p> <p>Teachers, students, and parents provided feedback indicating that they support the high-value tutors bring to the program.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>increase teacher referrals for students. In addition, we will increase efforts to promote tutoring to students. We are implementing intensive tutoring with increased participation and access to virtual and in-person tutors. A high-quality tutor and additional referrals will increase student participation in tutoring.</p> <p>This will help them complete their assignments and increase the rate at which they finish their courses. Tutors support these students both virtually and in person and are available during school hours and on Saturdays. They scaffold skills that need to be reinforced through additional practice. Tutors deliver a critical level of support that we have seen be successful in helping address academic gaps effectively and improve student progress toward credit recovery and graduation.</p> <p>We expect that these actions will be effective at increasing students' credit completion rate which leads to improved graduation rates. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis.</p> | <p>our student groups, especially for the following student groups in the red: African American, Hispanic, Two or More Races, White, English learners, homeless, students with disabilities, and socioeconomically disadvantaged student groups, we expect them to increase each year. Additionally, student groups on the Dashboard graduation rate will be monitored.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p> |
| 1.4               | <p><b>Action:</b><br/>Counseling students towards graduation and materials</p> <p><b>Need:</b><br/>To address the requirements of Differentiated Assistance (DA) we developed this action. The</p>  | <p>To address this, data is pulled monthly to track the success rate of seniors and their credit completion. As a collaborative team, all staff work to identify underperforming students and to provide them with additional support and resources to help support their learning efforts. To address obstacles to graduation, we will provide additional training</p>  | <p>We will closely monitor progress on our DASS graduation rates for all of our student groups, especially for the following student groups in the red: African American,</p>   |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis   | Metric(s) to Monitor Effectiveness   |
|-------------------|---|---|--|
|                   | <p>San Diego County Office of Education has provided training. Our school did a collaborative evaluation of the performance results from the California School Dashboard, with additional internal data to identify a root cause for reason for the students being behind in their credits. Students who enroll with us average about +30 credits or more behind in their schooling.</p> <p>We examined the needs of our student groups in the red on the CA Dashboard for their 4-5 Graduation Rate. These were our all-student group, African American, Hispanic, Two or More Races, White, English learners, homeless, and students with disabilities. We noticed that these students were also in the socioeconomically.</p> <p>Historically, some of our lowest graduation rates are among the English learners, LTEL, low-income, and foster youth student groups, who are also students with disabilities, when compared to the All-student group who are at 78.4% for the 2023 DASS graduation rate. The 2024 DASS graduation rate increased to 91.7%, and in 2025 it was 94.7%. We examined the needs of our students who are behind in their coursework and credits. They are behind for a variety of reasons and many obstacles need to be addressed before they graduate successfully.</p> <p>Teachers, students, and parents provided feedback indicating that they support the high-value counselors bring to their students.</p> | <p>and support to identify students' socio-emotional needs, incorporate counseling services to support students' well-being, and create a positive learning environment.</p> <p>Counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will promote a positive working relationship and will connect frequently or as needed with high-needs students, to help meet social-emotional needs using programs, that promote intrinsic motivation and guides students to achieve their graduation goals.</p> <p>Our students participate in a comprehensive counseling program throughout the school year and on an ongoing basis. Counselors meet regularly with students to address their needs. They also inspire students to continue to be productive and strive to accelerate their learning.</p> <p>We expect that these actions will have a positive impact on work DASS graduation rates. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p> | <p>Hispanic, Two or More Races, White, English learners, homeless, students with disabilities, and socioeconomically disadvantaged student groups,</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p> |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis   | Metric(s) to Monitor Effectiveness  |
|-------------------|---|---|---|
|                   | <p><b>Scope:</b><br/>Schoolwide</p>   |   |   |
| <p><b>1.5</b></p> | <p><b>Action:</b><br/>Student activities that increase learning efforts</p> <p><b>Need:</b><br/>As demonstrated in the Identified Needs and Metrics sections, English Learners, low-income, and foster youth students are often underperforming in their capacity for credit completion. The expected average is 4.0 for all students. They often exhibit low motivation to complete their assignments.</p> <p>Students, teachers, and parents provided feedback indicating that they support the value of meaningful student activities and recognition.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>To address this, we will increase the enrichment activities for students to build motivation to increase credit completion. This will include collaboration between leadership and staff along with sharing best practices. Additionally, we will increase student participation and engagement in meaningful school activities. The school will acknowledge student achievement and celebrate student successes to get buy-in. The school will also boost student morale by increasing student-led events and activities creating a positive learning environment. Students are recognized for their efforts in a variety of ways that are meaningful to them. This includes but is not limited to celebrations, field trips and enrichment experiences.</p> <p>Throughout the school year, and on an ongoing basis, our students participate in a comprehensive recognition program that helps support their scholastic efforts. We have witnessed how these actions can inspire students to continue to be productive and strive to accelerate their learning.</p> <p>We expect that these actions will have a positive impact on work completion rates. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p> | <p>We will closely monitor progress on our credit completion rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities. We anticipate from these actions and support services to see an increase up to 4 credits per learning period.</p> <p>We will also consider input from students and parents to enhance the quality of the program provided.</p> |

| Goal and Action # | Identified Need(s)   | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis  | Metric(s) to Monitor Effectiveness   |
|-------------------|--|--|--|
| <p><b>2.1</b></p> | <p><b>Action:</b><br/>Career and college-readiness for English Language Learners, low-income and foster youth students</p> <p><b>Need:</b><br/>Some of our lowest career and college-readiness rates are among the English learners, low-income and foster youth student groups who are all below the state average of 18.7% for graduates completing a CTE pathway. They were also below the state average of 44.5% completing A-G courses, and below 11.1% in A-G + CTE pathway. In 2024, completing A-G was 1.5% and CTE pathway completion was 1.6%. For 2025, completing A-G was 3.1% and CTE pathway completion was 3.1%. Our English Learners, low-income and foster youth students need to be prepared to pursue a career or attend a college.</p> <p>Students, teachers, and parents provided feedback indicating that they support the value of meaningful student activities and recognition.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>To address this need, adjustments will include increasing the marketing of CTE pathways options, assigning proper A-G courses, and assigning CTE courses that align with a student's post-secondary plans. Our counselors will work closely with teachers to ensure all students complete their college and/or career coursework. Counselors connect students with WIOA to receive job training and placement. Additionally, field trips will be planned for career exploration. We know that English learners, LTELs, low-income, and foster youth students need to be prepared to pursue a career or attend a college.</p> <p>As soon as students enroll with us, they engage in career inventory, exploration, and professional skills, to align their interests into either CTE or other secondary education. We take into consideration local employment opportunities and student interests to help guide students into valuable coursework. Support personnel, staff, partnerships, and materials are essential to tailor and implement the curriculum for students. Throughout the school year and on an ongoing basis, teachers and counselors promote student interest in post-secondary endeavors. We have witnessed our students be successful in these programs.</p> <p>We expect that these actions will have a positive impact on our college and career readiness rates for our English learners, LTEL, low-income, foster youth, and students with disabilities Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p> | <p>We will closely monitor progress on our CTE completion rates and our A-G completion rates, and dual enrollment for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities.</p> <p>We will also consider input from the parents, students, and teachers.</p> |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis   | Metric(s) to Monitor Effectiveness   |
|-------------------|---|---|--|
| <p><b>2.2</b></p> | <p><b>Action:</b><br/>Professional development addressing English Language Learners, low-income and foster youth students</p> <p><b>Need:</b><br/>As demonstrated in the Identified Needs and Metrics sections, the CAASPP results in the ELA, math, and science assessments show that many of our lowest performing students are English learners, low-income, and foster youth student groups when compared to the All student group.</p> <p>Teachers and parents provided feedback indicating that they support the value of professional development to increase effectiveness.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>To address this need, we will add a wide variety of professional learning opportunities for staff and ensure students are prepared to take the CAASPP assessments. Our staff will be expected to participate in professional development that supports EL, LTEL, LI, and FY by attending designated local or regional trainings, workshops/seminars. Best practices will also be shared with colleagues to support a school-wide effort.</p> <p>Throughout the school year, our teachers regularly participate in trainings, conferences, workshops, and professional learning communities to provide information for our capacity to address our students' academic and social-emotional needs. We have seen a positive impact on our At-Promise students with additional staff training, such as trauma-informed practices.</p> <p>We anticipate that the increase in professional collaboration and learning will increase our state assessment results for our English learners, LTEL, low-income, foster youth, and students with disabilities will also increase. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis.</p> | <p>We will closely monitor progress on the CAASPP results, especially for English learners, LTEL, low-income, foster youth, and students with disabilities. We expect that these actions will have a positive impact on students with CAASPP scores increasing.</p> <p>We will also consider input from the parents, students, and teachers.</p> |
| <p><b>2.3</b></p> | <p><b>Action:</b><br/>Technology Access &amp; Support</p> <p><b>Need:</b><br/>All English Learners, LTEL, low-income, and foster youth students will have 100% access to</p>  | <p>We have seen success with teachers and staff continually supporting students' access to technology, and we will continue to provide training and materials to close any gaps. Computer and hot spots are provided for every</p>  | <p>We will monitor and sustain 100% of our students' access to technology for their educational program.</p>   |

| Goal and Action # | Identified Need(s)   | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis  | Metric(s) to Monitor Effectiveness  |
|-------------------|--|--|---|
|                   | <p>the curriculum and instructional support. We know that access to effective technology platforms and support programs is critical to student access to curriculum and instruction.</p> <p>Teachers and parents provided feedback indicating that they support the value of implementing a standards-based curriculum.</p> <p><b>Scope:</b><br/>Schoolwide</p>  | <p>incoming student. We expect that these actions will have a positive impact on our students.</p> <p>This action starts at student orientation and is ongoing throughout the school year. We expect that these actions will have a positive impact on our students.</p> <p>There is an ongoing effort to ensure that our English learners, LTEL, low-income, and foster youth students have access to technology. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis..</p>   | <p>We will also consider input from the parents, students, and teachers.</p>  |
| <p><b>2.4</b></p> | <p><b>Action:</b><br/>Support for Standards-based Curriculum and Instruction</p> <p><b>Need:</b><br/>All English Learners, LTEL, low-income, and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. The implementation score for our standards-based curriculum is 4.88, based on the CDE Standards Implementation Rubric.</p> <p>Teachers, and parents provided feedback indicating that they support the value of implementing standards-based curriculum.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>The adjustment to the action design will ensure that VAPA coursework is increased, developed, and implemented for student success in the upcoming three-year LCAP cycle. Additionally, curriculum and instruction support will be provided by curriculum specialists to help analyze data results to develop an improved process to monitor the effectiveness of our curriculum and instructional practices.</p> <p>Throughout the school year, our personnel will continue to collaborate and develop a high-quality, customized curriculum, and provide coaching to support implementation for the unique needs of our student groups.</p> <p>We expect that these actions will have a positive impact on our educational program resulting in a higher score each year. An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities.</p> | <p>We will closely monitor progress on our implementation of standards-based curriculum score from the CDE Standards Implementation Rubric. We expect improvement on the implementation score each year.</p> <p>We will also consider input from the parents, students, and teachers.</p> |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis   | Metric(s) to Monitor Effectiveness   |
|-------------------|---|---|--|
|                   |   | Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.  |  |
| 3.1               | <p><b>Action:</b><br/>Student Retention</p> <p><b>Need:</b><br/>We serve English Learners, LTELs, low-income and foster youth, with high mobility, who are typically behind in credits and have been out of school for about a semester or more. We have seen success in the retention rate for our student population, which is currently at 71.61%.</p> <p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>Ensuring that our English Learners, low-income and foster youth students are attending and remaining in school is critical to meeting their needs. To address this, we have trained personnel who provide outreach and monitoring of students so that their attendance is regular. We also have comprehensive recognition program. We will continue these practices, for our English Learners, low-income and foster youth,</p> <p>These actions occur throughout the school year. We expect that these actions will have a positive impact on our student retention resulting in a higher score each year.</p> <p>An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p> | <p>We expect that these actions will have a positive impact on the Retention Rate of our program and that we will stay above 80% each year for all of our English Learners, LTELs, low-income, and foster youths.</p> <p>We will also consider input from the parents, students, and teachers.</p> |
| 3.2               | <p><b>Action:</b><br/>Social and Emotional Supports</p> <p><b>Need:</b><br/>We serve English Learners, LTELs, low-income, and foster youth students, many of whom have sustained social and emotional trauma. How we address this impacts our Success Rate, which measures graduation, retention and rematriculation. The Success Rate is currently 94.20%.</p>   | <p>We know that the success of our program is connected to student social-emotional health. To address this issue, we have trauma-informed practices that have helped address many of the social-emotional needs of our English learners, LTELs, low-income, and foster youth students. Programs such as our SEL counseling, support personnel, social workers, professional development, and special programs such as yoga, have a positive impact on our students.</p>  | <p>We expect that these actions will have a positive impact on the Success Rate of our program and that we will stay above 80% each year for all of our English Learners, LTELs, low-income, and foster youths.</p>  |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis  | Metric(s) to Monitor Effectiveness  |
|-------------------|---|--|---|
|                   | <p>Teachers and parents provided feedback indicating that they support the value of student success.</p> <p><b>Scope:</b><br/>Schoolwide</p>  | <p>This action is provided on an ongoing basis, throughout the school year. Staff and teachers are all diligent in watching for signs of trauma and are quick to provide support.</p> <p>We will continue to provide and improve on these actions and services because we have witnessed success in our English Learners, low-income and foster youth students when their social-emotional needs are carefully considered. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>  | <p>We will also consider input from the parents, students, and teachers.</p>  |
| <p><b>3.3</b></p> | <p><b>Action:</b><br/>Access to Transportation</p> <p><b>Need:</b><br/>We serve English Learners, LTELs, low-income, and foster youth students who are frequently without access to transportation to school or other related programs. It is critical that they have good attendance in order to learn. The average attendance rate is currently 93.18%.</p> <p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>To address this issue, we provide a variety of transportation options from metro passes, bus services, and such. We will continue to provide this additional service for students because we have seen it improve their access to school and programs.</p> <p>These actions are provided throughout the school year and teachers make sure students have access to transportation. We know that staff and students working together daily, will have a positive impact on the attendance rates of our English learners, LTELs, low-income, and foster youth students.</p> <p>English learners, LTEL, low-income, foster youth, and students with disabilities are served by this action. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.</p> | <p>We expect that these actions will have a positive impact on the average attendance rate, and we will stay above 85% each year for all of our English Learners, LTELs, low-income, and foster youths.</p> <p>Chronic absenteeism is not a match for a DASS school.</p> <p>We will also consider input from the parents, students, and teachers.</p> |
| <p><b>3.4</b></p> | <p><b>Action:</b><br/>Access to Nutrition</p>   | <p>To address this, we will ensure that students have access to quality nutrition at the school or even</p>  | <p>We expect that these actions will have a positive</p>  |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis   | Metric(s) to Monitor Effectiveness   |
|-------------------|---|---|--|
|                   | <p><b>Need:</b><br/>Food scarcity for our highly mobile English Learners, LTELs, low-income, and foster youth students is a serious concern. We intended to do everything a school can do, including providing nutrition for all. We think this will help mitigate the drop-out rate, which is the non-completer rate for our independent study program. The non-completer rate is currently 13.05%.</p> <p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b><br/>Schoolwide</p>                    | <p>delivered if necessary. Students cannot learn well when they are hungry, so we will continue to provide food services and/or other means for them to receive sustenance.</p> <p>Throughout the school day, teachers and staff are diligent about the nutritional needs of students. They are quick to provide food daily. Students also ask for food as needed.</p> <p>These actions will decrease non-completer rates for our English Learners, LTEL, low-income, and foster youth student population. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>   | <p>impact on the average non-completer rate, which will stay below 10% for all our students.</p> <p>We will also consider input from the parents, students, and teachers.</p>                            |
| 4.1               | <p><b>Action:</b><br/>Community/Parent Liaison and Meaningful School Activities</p> <p><b>Need:</b><br/>Feedback from teachers, SRS, administrators, and counselors, state that the parents of English Learners, LTELs, low-income and foster youth students are less involved in their student's educational activities. According to our educational partners, parents are an essential component to effective schooling and the overall academic success of these students. As shown above, in the metrics section, we expect the participation counts to be above enrollment.</p> | <p>To ensure our continued success, we hope to see an increase in parent participation. We will continue to provide a community liaison who does outreach and promotes the school as a welcoming place for EL, FY, and LI through organizing on-site activities and events.</p> <p>We believe that increasing parent/family engagement, as well as creating and cultivating connections in the community, will have a positive impact on students. This action is on an ongoing basis, throughout the school year.</p> <p>The support of the community liaison is designed to meet the needs most associated with increased involvement of the parents of English Learners,</p> | <p>We will closely monitor the progress on our parent participation count so that they are above the enrollment amount.</p> <p>We will also consider input from the parents, students, and teachers.</p> |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis   | Metric(s) to Monitor Effectiveness   |
|-------------------|---|---|--|
|                   | <p>Teachers and parents provided feedback indicating that they support the value of implementing parent engagement activities.</p> <p><b>Scope:</b><br/>Schoolwide</p>  | <p>low-income and foster youth. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p>  |  |
| <p><b>4.2</b></p> | <p><b>Action:</b><br/>Translation and Outreach Services</p> <p><b>Need:</b><br/>According to our educational partners, parent and student connectedness is an essential component to effective schooling and the overall academic success of the identified students. We currently have 1153 participants in our PAC/ELAC meetings this year.</p> <p>Teachers and parents provided feedback indicating that they support the value of supporting student retention.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>Eliminating language barriers for families of our English learners is necessary to ensure that students and families are aware of school events and activities. We will continue to increase awareness of the school events and activities through translating materials and/or outreach services. The community liaison in coordination with our staff will utilize these services to increase communication with our EL, LTEL, FY, and LI parents using written, verbal, and virtual communications.</p> <p>Throughout the school year, we are committed to eliminating language barriers for families of our English learners. This is necessary to ensure that students and families are aware of school events and activities. We will continue to increase awareness of the school events and activities through translating materials and/or outreach services. The community liaison in coordination with our staff will utilize these services to increase communication with our EL, FY, and LI parents using written, verbal, and virtual communications.</p> <p>This action is designed to meet the needs most associated with increased communication and involvement of the parents of English Learners,</p> | <p>We expect that these actions will have a positive increase in participation in ELAC and PAC meetings. This is good for all our English Learners, LTELs, low-income and foster youth.</p> <p>We will also consider input from the parents, students, and teachers.</p> |

| Goal and Action # | Identified Need(s)  | How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis  | Metric(s) to Monitor Effectiveness   |
|-------------------|---|--|--|
|                   |   | low-income and foster youth. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.  |  |
| 4.3               | <p><b>Action:</b><br/>Educational Partner Engagement</p> <p><b>Need:</b><br/>Feedback from teachers, administrators, and counselors, state that the parents of English Learners, LTELs, low-income, and foster youth students are less involved in their student’s educational activities. Results from our school survey show that our parents report that 99% feel encouraged to participate.</p> <p>Parents and teachers provided feedback indicating that they support the value of educational partners.</p> <p><b>Scope:</b><br/>Schoolwide</p> | <p>According to our educational partners, parent involvement is essential to effective schooling and the overall academic success of these students. Sustaining educational partner engagement requires expenses for such things as communications, outreach, materials, activities, and transportation.</p> <p>We believe in the importance of parents feeling encouraged to participate. We expect that the community liaison in coordination with our staff will utilize these resources to increase positive two-way communication with our EL, FY, and LI parents using written, verbal, and virtual communications. This action is done on an ongoing basis throughout the school year.</p> <p>We will continue this action, because we have witnessed the positive impact on schools when barriers to access are removed for our English learners, LTELs, low-income, and foster youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.</p> | <p>We expect that these actions will have a positive impact on the school survey results. We expect parents will report that over 85% feel encouraged to participate each year, based on the school survey.</p> <p>We will also consider input from the parents, students, and teachers.</p> |

## Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

| Goal and Action # | Identified Need(s)   | How the Action(s) are Designed to Address Need(s)   | Metric(s) to Monitor Effectiveness   |
|-------------------|--|---|--|
| <p><b>1.1</b></p> | <p><b>Action:</b><br/>Long-term English Learners (LTEL) and English Learners support staff, interventions, and materials</p> <p><b>Need:</b><br/>According to the 2023 CA Dashboard, our English Learner student group was in the yellow on the English Learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. On the 2024 CA Dashboard, our ELPI status became orange at 37.5%. Our 2025 ELPI was ELPI 35.3%, which is an orange status, and our LTELs were 38.8%, which is also orange.</p> <p>Teacher and parent feedback indicated that they support the importance of the EL program and support for increasing students' skills.</p> <p><b>Scope:</b><br/>Limited to Unduplicated Student Group(s)</p> | <p>To address this, we will add an EL paraprofessional to the SGI class to ensure that English Learners and LTELs have quality trained support in their program. There will also be a bigger push in having EL and LTEL students see a tutor. We will implement a high-quality English Language acquisition program and add additional tutoring and paraprofessional staff to support students in their ELD SGI courses and with System 44 to address the identified needs.</p> <p>Throughout the year and on an ongoing basis, we will address students' needs by providing an EL Paraprofessional or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Students will receive individualized support based on their specific English proficiency level. We use an in collaboration with students and families. Implementing our Designated and Integrated English language development (ELD) is an integral part of our comprehensive program for every English learner to meet the linguistic and academic goals at their grade level as identified by their level of proficiency. ELs participate in Newcomer programs, Structured English Immersion, or English Language Mainstream, based on their capacity to successfully advance in their language acquisition and their academics. Support staff will provide specific language</p> | <p>We will closely monitor progress on this action which is designed to meet the needs most associated with English learner students. Using Integrated and designated unit tests on appropriate ELD &amp; ELA standard, and using real-time tracking, student language proficiency, and academic progress will be monitored and we expect their ELPI results, as well as the reclassification rate, to increase as a result of the personalized academic support they will receive from qualified personnel.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p> |

| Goal and Action # | Identified Need(s)   | How the Action(s) are Designed to Address Need(s)   | Metric(s) to Monitor Effectiveness  |
|-------------------|--|---|---|
|                   |  | <p>instruction through vocabulary and language development to support literacy skills and language acquisition.</p> <p>We expect that these actions, which are designed to address our EL and LTEL students' needs, will be effective at increasing our students' performance on the ELPAC and improving their reclassification rate. This action is provided on a limited basis.</p>   |   |
| <p><b>1.7</b></p> | <p><b>Action:</b><br/>Professional Development to Support English Learners and LTELs</p> <p><b>Need:</b><br/>According to the 2023 CA Dashboard, our English Learner student group was in the yellow on the English Learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. On the 2024 CA Dashboard, our ELPI status became orange at 37.5%. Our 2025 ELPI was ELPI 35.3%, which is an orange status, and our LTELs were 38.8%, which is also orange.</p> <p>Parent and teacher feedback indicated that they support the importance of professional development to support English learners and LTELs.</p> <p><b>Scope:</b><br/>Limited to Unduplicated Student Group(s)</p> | <p>To address student's learning needs, we will have a variety of professional development opportunities to support EL and LTEL students, including adding EL training to ensure that English Learners have quality instruction in their program. To address this need, we will provide professional development opportunities for teachers to enhance their skills in addressing diverse learning needs. This may involve workshops, seminars, or collaborative learning communities focused on effective instructional practices. Our English learners will be served by trained EL Paraprofessionals or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Trainings could include, but are not limited to developing an EL Tool Kit, implementing effective EL strategies using SIOP (Sheltered Instruction Observational Protocol), and scaffolding strategies such as modeling, building schema, contextualization, and others. Additionally, workshops, conferences, and professional learning communities provide</p> | <p>We will monitor progress on this action as it's designed to meet the needs most associated with English learner students. Using real-time tracking, student language proficiency and academic progress will be monitored, and we expect that the CA Dashboard ELPI, as well as the reclassification rate, will increase.</p> <p>We will also consider input from the parents of participating students to enhance the quality of the program provided.</p> |

| Goal and Action # | Identified Need(s) | How the Action(s) are Designed to Address Need(s)  | Metric(s) to Monitor Effectiveness |
|-------------------|--------------------|--|------------------------------------|
|                   |                    | <p>information that will build the capacity of faculty and staff to increase student performance.</p> <p>Professional development happens throughout the year at least three times on various topics. There is follow-up with staff who are trained using the professional learning community's model. There are opportunities for staff to engage in their effectiveness with each other and share best practices.</p> <p>We expect that our English Learners, including long-term English Learners' (LTEL), ELPAC scores, ELPI, as well as the reclassification rate, will increase as a result of the personalized academic support and attention they will receive from qualified personnel. This action is provided on a limited basis.</p> |                                    |

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable.

### Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

We are a single school LEA and an independent study DASS charter school, with over 55% unduplicated students. Our students are served by additional personnel specifically trained to address their specific social-emotional and academic needs. The funds were used to increase or retain critical personnel, who are essential to implementing each goal. Listed below are the goals and actions where there are additional personnel who provided direct services to unduplicated students:

Goal 1 Action 2: All academic interventions and program materials – have intervention teachers for math, ELA, and reading.  
 Goal 1 Action 3: Tutoring and support for students – have many tutors proficient in multiple subject areas.  
 Goal 3 Action 2: Social-emotional, trauma support services and materials.

We are single school LEA and do not have comparison schools.

| <b>Staff-to-student ratios by type of school and concentration of unduplicated students</b> | Schools with a student concentration of 55 percent or less   | Schools with a student concentration of greater than 55 percent  |
|---|--|--|
| Staff-to-student ratio of classified staff providing direct services to students            | A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery. | A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery. |
| Staff-to-student ratio of certificated staff providing direct services to students          | A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery. | A response to this prompt is not applicable, because we are a single-school LEA independent DASS school, focused on credit recovery. |

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## ***Purpose***

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## **Requirements and Instructions**

### **General Information**

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### **Reflections: Annual Performance**

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
  - If the LEA has unexpended LREBG funds the LEA must provide the following:
    - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
    - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
      - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
      - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
        - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
    - Actions may be grouped together for purposes of these explanations.
    - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
  - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

### **Reflections: Technical Assistance**

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

## Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

### Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## Engaging Educational Partners

### *Purpose*

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

## Requirements

### *Requirements*

**School districts and COEs:** [EC Section 52060\(q\)](#) and [EC Section 52066\(q\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## **Instructions**

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### *Purpose*

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### *Requirements and Instructions*

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

**Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### **Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

#### **Description**

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

#### **Type of Goal**

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

## Broad Goal

### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

#### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### **Maintenance of Progress Goal**

#### Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

#### Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
  - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

| Metric #   |
|--|
| <ul style="list-style-type: none"><li>• Enter the metric number.</li></ul> |
| Metric   |

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

## Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
    - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

## Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

## Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

| Metric   | Baseline   | Year 1 Outcome  | Year 2 Outcome  | Target for Year 3 Outcome  | Current Difference from Baseline   |
|--|--|---|---|--|--|

### Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

## Actions:

Complete the table as follows. Add additional rows as necessary.

### Action #

- Enter the action number.

### Title

- Provide a short title for the action. This title will also appear in the action tables.

### Description

- Provide a brief description of the action.
  - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
  - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

### Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

### Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

### For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

### For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

### For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

### For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### ***Purpose***

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### **Statutory Requirements**

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

## **LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

## **For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

## **Requirements and Instructions**

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

**Projected Additional 15 percent LCFF Concentration Grant**

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year**

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**LCFF Carryover — Percentage**

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar**

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year**

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**Required Descriptions:**

**LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

## Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## ***Total Planned Expenditures Table***

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## ***Contributing Actions Table***

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## ***Annual Update Table***

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## ***Contributing Actions Annual Update Table***

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## ***LCFF Carryover Table***

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## ***Calculations in the Action Tables***

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### **Contributing Actions Table**

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

## **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
